

SPEAKER #2

My name is \_\_\_\_\_ and I am here to read into the record the first portion of the USA Resolution.

## **Resolution**

### **for a Legally Valid 2024 General Election**

**Whereas** It is a recognized civil right in the United States for every citizen to have free and fair elections.

**Whereas** It is the duty of our election officials to guarantee our elections are accurate and free from distortion or manipulation.

**Whereas** Our constitutional system of representative government only works when the following four tenets of an election are upheld:

- 1. The Voter Rolls Must Be Accurate** (National Voter Registration Act, 1993).
- 2. Votes Counted Must Be From Eligible Voters** (US Constitution, Fourteenth Amendment, Section Two).
- 3. The Number of Votes Counted Must Equal the Number of Voters Who Voted.**
- 4. There Can Be No More Than One in 125,000 Ballots in Error by the Voting System** (Help America Vote Act, 2002).

**Whereas** The analysis of the California 2022 General Election has uncovered evidence of massive inaccuracies that appear to violate both federal and state laws, including:

- **5,886,198** ineligible or uncertain registration violations found within the California state voter roll database.
- **2,776,939** votes cast by ineligible or uncertain registrations.
- **123,785** more votes counted than voters who voted. No one knows who cast them.
- **2,776,849** apparent voting violations in excess of the legal standard of system accuracy for a valid federal election. Maximum allowable system errors for the 2022 general election was 90.

SPEAKER #3

My name is \_\_\_\_\_ and I am here to read into the record the next section of the USA Resolution.

**Certification as defined by law is an attestation of accuracy and compliance.** The certification of the 2022 election appears to have been fraudulent and illegal.

**Whereas** These findings trample legal accuracy requirements of the voting system during a Federal Election.

**Whereas** The intent of the voters must be known factually before certification can be lawfully conducted.

**Whereas** The 2022 General Election appears to have been invalid, depriving us of the guaranteed protection of our Natural Rights under a government duly and provably chosen by us, the American people, resulting in incalculable damage to our families, our way of life, and the fabric of these United States.

**Therefore** We call upon our **Representatives** to provide relief to the people, and the assurance of domestic tranquility, **by joining us in demanding a VALID 2024 General Election** that upholds these existing laws, and equitable principles of law:

- 1. Proof of citizenship, identity and eligibility** required to register and vote, not anonymous attestation.
- 2. Voter rolls certified accurate and available** for public review and challenge 30 days before the start of early voting. Voters added after that date must bring proof of citizenship, identity, and address in person to a qualified official at each polling place.
- 3. Hand-marked, secure ballots similar to currency.** Where imaging technology is used for tabulation, the security features must be verifiable in the ballot image.
- 4. Systems, machines, security measures, infrastructure and conduct are required to be compliant with federal law** for fraud prevention regarding risk assessment, certification, testing, and implementation.

SPEAKER #4

My name is \_\_\_\_\_ and I am here to read into the record the last section of the USA Resolution.

- 5. Adjudication must be signed-off** by party, candidate, and trained citizen witness after being given full and effective observation rights. Candidates and trained citizens must be allowed immediate access to ballots, ballot images and Cast Vote Records.
- 6. Ballots, regardless of entry source, election operations, and systems must maintain end-to-end chain of custody** from voter to vote count to final canvass, including auditability and witnessed transfer with paper records.
- 7. A National Institute of Standards and Technology-compliant, randomized, statistically valid end-to-end audit**, with a 95% confidence level, of all elections pursuant to the 14<sup>th</sup> Amendment, Section 2 must be performed.

These audits are to be conducted by qualified, insured and bonded security, forensics or financial auditors, not personnel from within the election system.

Reconciliation will include the vote count, real physical ballots, adjudication, Cast Vote Records, ballot count, qualified voter count, custody transfer, and all other paper and electronic election systems, including logs.

- 8. If the total of unique variances above is more than 10% of the margin of victory, a new election must be held** in the state for those candidates affected, unless the issues can be provably corrected by a manual hand recount and a full review of records.
- 9. Waiver of requirements is not allowed.** Only end-to-end system compliance, from registration through certification, can guarantee the intent of the people is accurately recorded.

**Be it Resolved** That the \_\_\_\_\_ City Council Members stand in support with the concerns and remedies presented here.

We implore the \_\_\_\_\_ Board of Supervisors, California Legislature, Federal Legislators, Law Enforcement, Federal and State Prosecutors, Judges, and both California Secretary of State, and County Registrars of Voters to cooperate and fulfill these firm requests of the people.
