Organizational Overview

Since 1945, your local United Way of Ventura County has helped the community receive valuable health and human services.

United Way advances the common good through the 3 focus areas to help impact our community. ALL the proceeds raised stays in the county.

- Health
- Financial Stability
- Education

- United Way launched a Homelessness Initiative to include a Landlord Engagement Program to increase housing stock and utilize existing housing vouchers and housing subsidies provided by local jurisdictions and community partners. Everyone needs a safe place to call home, yet that basic need is increasingly out of reach for many people in Ventura County.
- The Landlord Engagement Program (LEP) has placed 90 veterans and their family members in permanent housing. Of these 90 veterans, 34 are seniors and 30 VASH vouchers were utilized. The LEP has housed 19 transitional age youth.
- A total of 359 households and 685 people have been permanently housed since the United to End Homelessness LEP launched in December 2019.
- The LEP has a 97.5% housing retention rate.
