to sign online

Ventura County nurses and health care professionals are united in our demand to keep Labor and Delivery (L&D) and Intensive Care Unit (ICU) services open at Santa Paula Hospital. Our community deserves a full-service hospital without cuts to staffing or patient care services, and that preserves the community's access to quality care.

Cuts to services at Santa Paula Hospital would have a negative impact on our patients and the communities we care for.

**We demand VCMC administration and the Ventura County Board of Supervisors preserve access to these critical services at Santa Paula Hospital.**
