# IN SUMMARY

We help people and support businesses, but our work is much more than that. By keeping businesses moving and people working, we are fortifying an economy that impacts the lives of our county and beyond.

Research shows we cannot expect a full economic recovery in job growth for ten years or 2033. Therefore, the Workforce Development Board training programs will seek to carry out our leadership role and outlook in bringing new, well-trained, career-minded employees to support businesses in need.
