EXHIBIT "H"
UTILIZATION REVIEW AND CONTRACTORS INVOICE PROCEDURE
Amended July 1, 2024

1. Utilization Review staff will contact CONTRACTOR to schedule the chart review site visits.
2. A random selection of charts documenting services provided the previous month will be reviewed, per COUNTY policy.
3. **For out of county contractors** who are not directly entering billing into the VCBH Electronic Health Record System, all clinical documentation for the previous month, including updated treatment plans and assessments, will be encrypted and emailed securely to VCBH Quality Assurance Utilization Review at QM.UR@ventura.org.
4. CONTRACTOR will submit its monthly invoice(s) to VCBH Fiscal Administration Accounts Payable by email to: bh_accountspayable@ventura.org or by mail to:

Ventura County Behavioral Health
Fiscal Administration Accounts Payable
1911 Williams Drive, Suite 210
Oxnard, CA 93036

Invoices **MUST** include the following information: (1) remit to name and address, (2) invoice date, (3) invoice number, (4) Federal identification number, (5) service month, (6) rate(s), (7) units of service, and (8) Electronic Health Record System report from the County system that demonstrates and ties to the specific units of service that are included in the invoice.

5. Utilization Review staff will review documentation for compliance with the Department of Health Care Services documentation standards and notify CONTRACTOR of any out of compliance items via a "Chart Remediation" memo, on a quarterly basis. If the CONTRACTOR does not remediate issues and demonstrates continuous areas of concern and/or disallowances, the frequency of the Utilization Reviews may increase. Items that may be corrected to prevent disallowance of units will be identified and CONTRACTOR will have two (2) weeks to return evidence of correction to the Utilization Review office.
6. Items that are not remediated or cannot be corrected will be noted and units will be disallowed from CONTRACTOR's invoice. CONTRACTOR's invoice will be reduced to reflect the reduction of the disallowed units multiplied by the associated unit rate of service.
