EXHIBIT “A”
SCOPE OF WORK
EVALCORP
July 1, 2024 through June 30, 2025

Understanding

Evalcorp recognizes that VCBH is commissioning a comprehensive evaluation of the impact of programs and activities implemented through the use of Opioid Settlement Funds (OSF), in accordance with state and federal guidelines. A Results-Based Accountability (RBA) framework will be utilized to assess performance indicators for activities and programs funded by the settlement, while also tracking their larger impact on the community across a thorough set of population indicators. To carry out these tasks and activities, an evaluation of current opioid surveillance, prevention, suppression, and treatment activities is needed.

Tasks and Activities

TASK 1. INITIAL INFORMATION GATHERING AND ON-GOING COMMUNICATION STRATEGIES

Evalcorp proposes a series of meetings to establish productive and collaborative relationships with VCBH and other County organizations implementing OSF funded activities. Details about the frequency and purpose of each meeting type are provided below:

- Launch Meeting – The goal of the launch meeting is to enhance Evalcorp's understanding of the desired outcomes for the project in FY24/25, gather feedback from VCBH staff about the proposed workplan, and glean additional information about current data collection efforts.
- Provider Meetings – Meetings with agencies, departments and contracted providers are important for understanding and strengthening the evaluation infrastructure for prioritized OSF funded activities and programs. Evalcorp will learn about resources and activities from each provider (County departments, programs, contractors) and help identify meaningful outputs and outcomes that can add value to the overall evaluation.
- Monthly Meetings – The purpose of monthly meetings is to keep VCBH staff informed of Evalcorp progress, received feedback from VCBH staff, assess progress toward project goals and outcomes, and provide an opportunity for VCBH staff to share information about OSF activities or emerging needs with Evalcorp staff. Meetings will be conducted via teleconference or, in some cases, in person.

Evalcorp prioritizes frequent, early, and clear communication with all clients. Evalcorp will be available to the County via email and phone. Evalcorp will respond to all inquiries within 24 hours, but it is often much sooner.

TASK 2. PROJECT PLANNING

Evalcorp will work in collaboration with VCBH and providers of OSF-funded activities and programs to finalize the FY 24/25 Project Work Plan that contains the specific evaluation activities, milestones, and project completion timeframes. The Project Work Plan will also contain goals and outcomes in relation to this project according to the

County's six (6) identified OSF program areas; these goals and outcomes will be identified in conjunction with key stakeholders during the Launch Meeting and initial Provider Meetings, taking into account the Goals and Objectives of the Opioid and Illicit Drug Workgroup. Evalcorp expects to work closely with VCBH staff on the Project Work Plan to ensure that it meets the needs of multiple County stakeholders.

TASK 3. TOOL DEVELOPMENT

Evalcorp will review and assess existing data collection tools from providers of OSF funded programs/activities for inclusion into the final evaluation report. Evalcorp will also collaborate with VCBH and key representatives of the County Opioid Abuse Suppression Taskforce (COAST) to develop new data collection instruments as part of the needed evaluation infrastructure. Data tools for possible development include:

- **Tracking Logs:** Tracking logs will be used to document the progress of implementing opioid abatement activities, helping stakeholders identify areas of success and those needing further support or attention. Moreover, they will provide a structured method for ensuring transparency and oversight, ensuring that efforts are directly aligned to the collective outcomes of local opioid abatement efforts.
- **Outcome Surveys:** Surveys can be utilized to gather firsthand feedback from individuals participating in opioid settlement funded programs/activities, offering insights into the effectiveness and impact of opioid abatement activities. Additionally, they provide a quantitative and qualitative means to assess awareness, behavior changes, and areas of concern, facilitating data-driven decision-making and strategy refinement.

TASK 4. DATA COLLECTION AND ANALYSIS

The core approach for this evaluation centers on a trend analysis of population and performance indicators. We aim to capture the state of the opioid crisis before the allocation of settlement funds and then monitor population indicators post-allocation. This would allow for the identification of changes and trends concurrent with the implementation of OSF funded programs.

To explore population-level data, Evalcorp will analyze a comprehensive list of secondary and administrative datasets that encompass a wide array of data points ranging from opioid overdose deaths, prescription rates, treatment admissions, emergency department visits, among others. By leveraging these datasets, the evaluation offers a holistic understanding of the opioid crisis landscape before and after the infusion of settlement funds. Concomitantly, Evalcorp will work with providers of OSF funded programs and activities to capture primary and secondary data that will inform an evaluation of process and outcome objectives associated with the implementation of each program or activity.

Our proposed data collection and analysis activities will provide the following key components of the results-based accountability evaluation:

- **Secondary Data:** Evalcorp will conduct an analysis of prevalence and/or utilization trends across the substance use system of care. Population indicators could include:

- Opioid Overdose Deaths
 - Opioid Prescribing Rates
 - Substance Abuse Treatment Admissions
 - Emergency Department Visits (related to opioid overdose or opioid-related complications)
 - Naloxone Administration
 - Neonatal Abstinence Syndrome
 - Drug Poisoning Mortality Rates
 - Syringe Exchange Programs
 - Access to Medication-Assisted Treatment (MAT)
 - Criminal Justice Data
 - California Healthy Kids Survey
- Primary Data: Evalcorp will conduct an analysis of process indicators related to the performance of priority programs/activities. Data from both process and outcome objectives for priority programs/activities will inform annual evaluation reports.

TASK 5. DATA ANALYSIS

Evalcorp will create data analysis plans and conduct requisite univariate and multivariate statistical analyses of population-level indicators. Additionally, frequency and crosstab analyses will be conducted on collected tracking log and survey data collected from providers of opioid settlement funded programs/activities.

TASK 6. REPORT & PRESENTATION DEVELOPMENT

Evalcorp will compile all primary and secondary data collected through the evaluation of opioid settlement funded programs for inclusion into an annual Results-Based Accountability Evaluation Report, with data organized by calendar year.

- Report 1: Initial VC Opioid Crisis Response Evaluation Report. Initial draft to be submitted to VCBH by August 1, 2024. Final draft to be submitted to VCBH by September 30, 2024.
- Presentation 1: VC Opioid Crisis Response Evaluation Presentation. Presented to a selected stakeholder group, as requested, by August 31, 2024.
- Presentation 2: Results-Based Accountability Evaluation Presentation. Presented to stakeholder group, as requested, by April 30, 2025
- Presentation 3: Results-Based Accountability Evaluation Report. Final draft to be submitted to VCBH by June 30th, 2025.
