Subject: Dec. 6 Hearing, Item #75 - Wildlife Crossing Structure Setbacks
Date: Monday, December 5, 2022 9:56:47 PM

WARNING: If you believe this message may be malicious use the Phish Alert Button to report it or forward the message to Email.Security@ventura.org.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County would help ensure that wildlife continue using them rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Mitchell Johnson

WARNING: If you believe this message may be malicious use the Phish Alert Button to report it or forward the message to Email.Security@ventura.org.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Damien Etchaubard
310 S Brent St
Ventura, CA 93003

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. It's the least we can do after taking over their land. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly. There is nothing quite like the panic of needing to slam on the brakes to avoid an animal on the road.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Monica Wiesblott

WARNING: If you believe this message may be malicious use the Phish Alert Button to report it or forward the message to Email.Security@ventura.org.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Kelly Nakamaru

Dear Chair LaVere and Members of the Board,

Sad the only mountain lion I have ever seen was lying dead along the 33 having been hit by a vehicle. It was so big but not so big as the vehicle that hit it. It is public safety and conservation to allow these wild animals to move about as they must. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

WARNING: If you believe this message may be malicious use the Phish Alert Button to report it or forward the message to Email.Security@ventura.org.

Dear Chair LaVere and Members of the Board,

As a Camarillo Heights resident not only do I urge you to support the 200ft. setbacks adjacent to animal crossings in the northern part of our county...I urge you to study animal crossings throughout the county and prioritize and protect all those that link our vital open spaces. The 118, Santa Rosa Rd, and the 126 should all be considered for similar setbacks.

This comprehensive approach would complement and coordinate Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County is a critically important first step in the effort to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
merrill berge

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Lynne Boyle

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I believe that enabling animals to move safely across the landscape is deeply important to our community and our environment. Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors are commendable but we must do more to ensure that these animals continue to be able to live freely and do their part to contribute to our vibrant local ecosystem.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Donald Sanders

Dear Chair LaVere and Members of the Board,

As someone who has found both dead pumas, bears and bobcats on the rd in the early mornings right where the 33 enters Casitas springs and elsewhere, I cannot urge your support for wildlife crossings. One of the reasons our area remains so beautiful is because of the ecosystems immediately surrounding us. If we don't protect every part of them, they will no longer provide the home we all love.

I I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Cathleen Lynch

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. My sister, the late County Board of Supervisors Chair, Carmen Ramirez, supported the habitat crossing of Hwy 101. I applaud Ventura County's continuing efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
María Ramirez

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Richard Shafer

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Debra Reed

Dear Chair LaVere and Members of the Board,

I am a resident of Ojai and believe deeply in protecting and supporting our local wildlife. This includes helping animals move safely across the landscape. I am grateful for the County's recent efforts to preserve habitat connectivity and to protect wildlife corridors. This is critical especially as climate change adds stress to our ecological systems.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Dear Chair LaVere and Members of the Board,

Haku, hello,

Just a quick hello to ask everyone on Ventura Co Supervisors Board to continue honoring, respecting, and remember all native lives living within Ventura Co, as you have done in order to protect our corridors. I truly desire peace, healing and unit in our county. One way for this to happen is to make sure we stand for all lives. Please vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these 200 foot setbacks.

The more we show our children we desire to love and remember all lives the sooner we'll see the changes we want....

Thank you,
KC Rodriguez

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Bonnie Godfrey

WARNING: If you believe this message may be malicious use the Phish Alert Button to report it or forward the message to Email.Security@ventura.org.

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Susan Cohen

Frazier Park, Ca 93225

“A” Lic. #585339 exp. 1-31-2024

(661)-245-1777

7-19-2023

TO: Ventura Co. Board of Supervisors

ATTN: Clerk of the Board

RE: Case No. PL19-0088

Dear Honored Board of Supervisors and RMA Planning Division,

My name is Tom Warner I live in Lockwood Valley and own a specific property in question of purposed “Wildlife Crossing Structure(s)” 50825-3-14/50825-4-14 at mile marker 18.60/68. I have lived in Lockwood Valley my entire life (67 years as of this writing). I contracted with Ventura Co. Road Department for 30+ years and have worked on every inch of Lockwood Valley Road. I have paved, cleaned crossings, weed abatement, snow plowed and even installed/cleaned culverts.

I am opposed to this structure for the following reasons:

1. To my knowledge Lockwood Valley was exempted from the “Wildlife Corridor” as it was found to be an extremely remote area with few residents and minimal road traffic that would affect wildlife.
2. The area in question is almost in the center of an only sparsely covered sagebrush valley floor with closest trees and homes 1/8 mile away. I believe anyone with knowledge of wildlife knows that they prefer trees for maximum cover not out in basically open fields. You cannot direct wild animals to cross in a specific spot.
3. Under your “Exhibit 21” page 146 of PDF Entire PL16-0127 #7 “Crossings on roads with extremely low traffic volumes were excluded with 200 vehicles trips per day or less.” Which Lockwood Valley Rd on average days is less than 200 vehicles.
4. Also, under your “Exhibit 21” page 149 of PDF Entire PL16-0127 “Table 1 Functional Features and their Support of Functional Connectivity: Feature-Proximity to Other Suitable Crossings or lack of nearby culverts that could provide passage within 0.5 miles of the crossing. There are two consecutive large washes at mile marker 17.40 to 17.70 a drainage ditch 300 ft. wide, 20 foot deep and mile marker 17.90 to 18.20 which is Lockwood Creek that is over 300 ft wide and 20 ft deep and has a culvert that is a 3-foot oval.
5. This would be a complete waste of tax payers’ money.

Continued on next page

Continued from previous page

In summation:

This is a wide-open valley with only 1 home next to Lockwood Valley Road traveling SW for 12 miles from purposed crossing and first home traveling NE is 1 mile from purposed crossing (see pics). Wildlife has plenty of places to cross and traffic is very minimal. This crossing would be somewhat understandable if Lockwood Valley Rd. was a freeway, interstate or highway. Planning seems to think you can dictate where an animal can cross a roadway which is ludicrous. Please listen to the following audio of a call to a radio station regarding Deer Crossing signs:

<https://youtu.be/aOHwwFBYawQ?t=76>

It indicates the absurdity of this proposal.

Sincerely,

Thomas A. Warner
Warner Construction

Dear Chair LaVere and Members of the Board,

I am a resident of Ventura County, and I care deeply about helping animals move safely across the landscape. I applaud Ventura County's recent efforts to preserve habitat connectivity and to protect wildlife corridors.

The proposed 200-foot setbacks from the 16 wildlife crossing structures in northern Ventura County complements these efforts by helping to ensure that wildlife continue using safe passages rather than putting themselves and drivers at risk by crossing roads directly.

I urge you to vote YES on the proposed amendments to the Non-Coastal Zoning Ordinance to establish these setbacks.

Thank you,
Stephanie Castro

I have attached a letter opposing this ridiculous proposal. You can't predict/force an animal to cross a road where you think it should! County must stop infringing/restricting private property!
Thank you

RE: Case No. PL19-0088

Dear Honored Board of Supervisors and RMA Planning Division,

My name is Tom Warner I live in Lockwood Valley and own a specific property in question of purposed “Wildlife Crossing Structure(s)” 50825-3-14/50825-4-14 at mile marker 18.60/68. I have lived in Lockwood Valley my entire life (67 years as of this writing). I contracted with Ventura Co. Road Department for 30+ years and have worked on every inch of Lockwood Valley Road. I have paved, cleaned crossings, weed abatement, snow plowed and even installed/cleaned culverts.

I am opposed to this structure for the following reasons:

1. To my knowledge Lockwood Valley was exempted from the “Wildlife Corridor” as it was found to be an extremely remote area with few residents and minimal road traffic that would affect wildlife.
2. The area in question is almost in the center of an only sparsely covered sagebrush valley floor with closest trees and homes 1/8 mile away. I believe anyone with knowledge of wildlife knows that they prefer trees for maximum cover not out in basically open fields. You cannot direct wild animals to cross in a specific spot.
3. Under your “Exhibit 21” page 146 of PDF Entire PL16-0127 #7 “Crossings on roads with extremely low traffic volumes were excluded with 200 vehicles trips per day or less.” Which Lockwood Valley Rd on average days is less than 200 vehicles.
4. Also, under your “Exhibit 21” page 149 of PDF Entire PL16-0127 “Table 1 Functional Features and their Support of Functional Connectivity: Feature-Proximity to Other Suitable Crossings or lack of nearby culverts that could provide passage within 0.5 miles of the crossing. There are two consecutive large washes at mile marker 17.40 to 17.70 a drainage ditch 300 ft. wide, 20 foot deep and mile marker 17.90 to 18.20 which is Lockwood Creek that is over 300 ft wide and 20 ft deep and has a culvert that is a 3-foot oval.
5. This would be a complete waste of tax payers’ money.

Continued on next page

Continued from previous page

In summation:

This is a wide-open valley with only 1 home next to Lockwood Valley Road traveling SW for 12 miles from purposed crossing and first home traveling NE is 1 mile from purposed crossing (see pics). Wildlife has plenty of places to cross and traffic is very minimal. This crossing would be somewhat understandable if Lockwood Valley Rd. was a freeway, interstate or highway. Planning seems to think you can dictate where an animal can cross a roadway which is ludicrous. Please listen to the following audio of a call to a radio station regarding Deer Crossing signs:

<https://youtu.be/aOHwwFBYawQ?t=76>

It indicates the absurdity of this proposal.

Sincerely,

Thomas A. Warner
