

FROM: Deborah Baber, Candidate for State Assembly District 38 | Cell: 646-895-0049  
BOS Meeting June 18, 2024

Elections have consequences. Corrupt elections have catastrophic consequences. Look no further than the gas prices and empty grocery shelves at home for evidence and the billions of dollars spent on wars and other countries borders abroad. (Did you know the automatic military draft for 18 year old boys and girls is being resurrected? How old are your children and grandchildren?)

I don't trust the election process so, I have little to no confidence in election outcomes. This is not an indictment of the people in the elections division but, it is an indictment of a machine-driven process that appears to be on automatic pilot, uses software that is proprietary so voters can't observe or examine the internal workings, and now embraces vote by mail ballots with large percentages of them disappearing and are completely unaccounted for.

### **FACTS RELATED TO CURRENT VOTER ROLLS AND ELECTION REPORTS**

Results from canvassing just over 400 homes.

- At least 2 dead people were sent ballots. Both died two years ago.
- At least 2 voters received and voted ballots but have not lived in Oxnard for over two years because they are fulltime residents of Canada. Interestingly, one of them received from Democrat Congresswomen Julia Brownley \$100k grant in 2015.
- Dozens and dozens of voters were mailed ballots and don't live at the address of record.
- Dozens of the current residents have lived at the address for years but have no idea who the voters that are registered at the resident's address.
- There are at least a dozen situs addresses that are commercial business and PO boxes.
- Thirteen voters are over the age of 105. All were sent ballots and three of them voted. 5 are 106 years old; 1 is 107, 1 is 108, 1 is 109, 1 is 121, and 4 were born in 1850 before the Civil War.
- 47,934 voters don't list places of birth.
- Several voters returned ballots before turning 18 on election day.
- There are records of voters voting twice in the same election and in some instances, they voted in different precincts and their ballots are recorded with different return methods.
- Senator Alex Padilla who was elected but is listed on the current 6/7/24 Incumbent List as having been "Appointed to a vacancy".

1111	United States Senator Partial/Unexpired Term			

In March I asked for cost information on the primary elections. I was told it would be a few months before all the invoices and related information would be available. Here you are in the throws of the budget year and the cost for the March 2024 Primary elections, three months later, is still unknown.

On April 9, 2024 I asked questions about party designations appearing on the voter rolls especially those with an asterisk and those that display N-P and are described as Nonpartisan (System Use Only) (My husband's history record was tagged with N-P in June 2016, the first time Donald Trump appeared on our ballots. Mark has been a registered Republican all his life. There never has been a satisfactory answer to how and why his party registration was changed.)

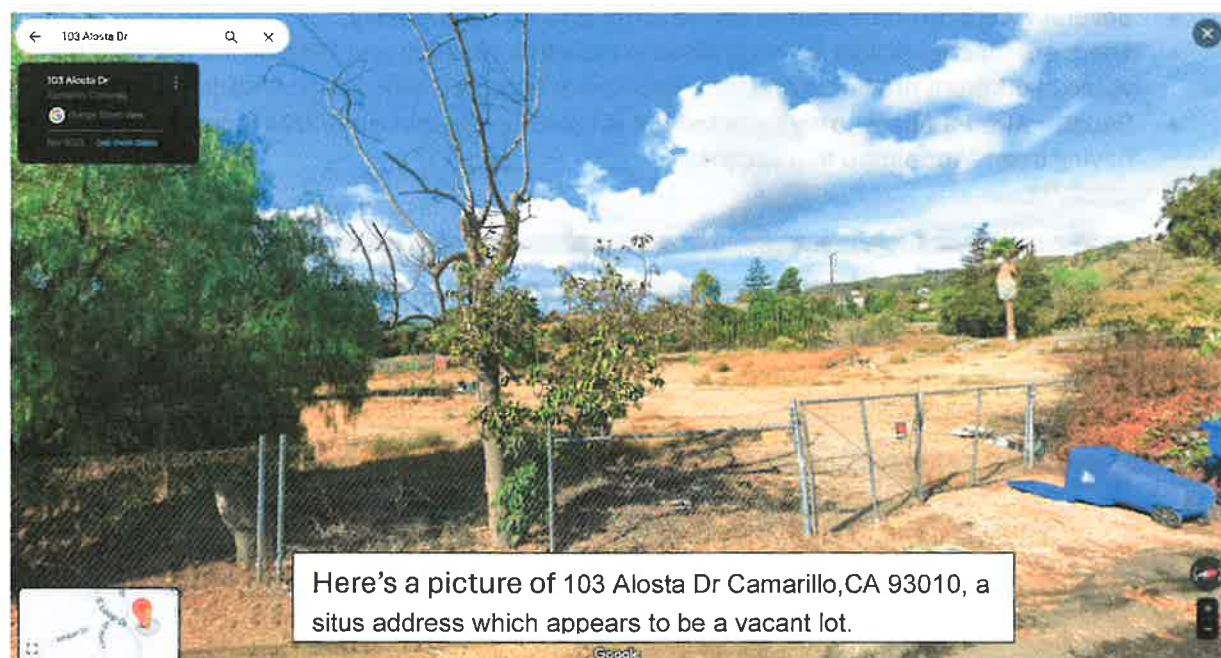

A voter history file dated April 9, 2024 includes 211,235 of these N-P entries out of 6,761,789 records. The N-P designation first appears associated with the Jun 2012 Primary, and N-P is associated only with Primary elections. It never appears on the customer voter files that lists the voters party preference.

## Sample Data

Ventura County Election Division File Name  
MVMJ004\_Hist\_20221101\_135159\_132044

CONCERN: Some IVoterUniqueIDs have multiple records for the same election. Sometimes the szVotingMethod is different. Sometimes the sVotingPrecinct also differs.

QUESTIONS: Why do most records align with 1 vote - 1 election but some have multiple entries? Is it possible that ballots were cast (and counted?) for a voter in two precincts?

TAN & GREEN highlight multiple vote records for the same election
