Discussion:

In 2018, HCA selected Kronos's Central electronic scheduling and timekeeping system. Since 2018, Kronos has developed a new electronic scheduling and timekeeping platform, Dimensions. Since HCA has not completed Central's implementation, and portions of Central will be retired in a few years, it is in the best interest of HCA to migrate the implementation efforts from Central to Dimensions.

To ensure a successful operation and seamless integration of Dimensions across all HCA, it is essential to renew 800 UKG license "subscriptions". This will enable staffing coordination and facilitate efficient communication and coordination within the organization. This also brings contract in alignment with additional time keeping subscriptions

This transition will not only maximize the benefits of the Kronos platform but also improve operational efficiency, compliance, and ultimately enhance patient care. Acquiring the additional licenses is necessary for successful integration and to provide comprehensive coverage for all staff members across the organization.

For the reasons outlined in this letter, it is recommended that your Board authorize the HCA Director or designee to sign quote No. Q-209396 with Kronos for 800 UKG license “subscriptions” for a total cost of \$89,332 effective March 29, 2024 through July 26, 2026.

This letter has been reviewed by the County Executive Office, County Counsel, Auditor Controller’s Office, IT. If you have any questions regarding these recommendations, please contact Bach Nguyen, HCA Chief Information Officer, at 805-652-5762.
