Dear Supervisors:

I am writing in support of the request to approve the 2 amendments to allow for the upgrade of the Dominion Voting Machines and for the County Clerk-Recorder and Registrar to sign amendments and addenda in future, not to exceed 10% of the amount.

I believe these machines have functioned well, as far as I am aware from any public information. I believe this system is the most efficient way in which to conduct our upcoming election.

I know this is not part of the item, but if supervisors might take a minute to discuss any need for additional security or security measures at any of the voting centers that might be designated as problematic, to the best of anyone's knowledge. Thank you.
