Water Bill Account No. [REDACTED]

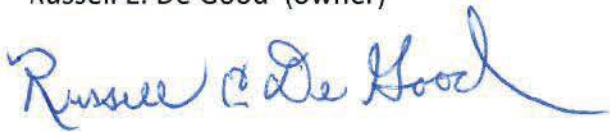

Property Tax Parcel No. 507-0-052-015

Gentlemen,

I am writing this letter **to oppose the proposed water rate increases**. Many families will be overburdened with these rate increases. Inflation is at a 40 year high and gas prices are at a 47% increase over last year. People are struggling to make ends meet. We have received twice as much water this year, there are no drought conditions. **Definitely, no need for rate increases at this time!**

Sincerely,

Russell E. De Good (owner)

Re: Proposed Rate Increase County of Ventura Waterworks District No. 1

I wish to protest the proposed water rate increase. As the property owner on a fixed income the increases that have already occurred over the last several years had significantly and negatively affected our household budget. I have already removed my lawn and have my property on drip irrigation so I don't have any other way to keep my water bill manageable.

Sincerely,

*William M. Mayfield*
