

CERNER SALES ORDER

This Cerner Sales Order is made on _____ (“Effective Date”), between

County of Ventura (“Client”)

a California government agency with its principal place of business at

800 S Victoria Ave
Ventura, CA 93009-0001, United States
Telephone: (805) 677-5110

and **Cerner Corporation (“Cerner”)**

a Delaware corporation with its principal place of business at

8779 Hillcrest Road
Kansas City, MO 64138, United States
Telephone: (816) 221-1024

Cerner Sales
Contact: Matthew Wilson
matthew.wilson2@cerner.com

Client agrees to purchase the specific products and services set forth herein, and Cerner agrees to furnish such products and services upon the terms and conditions of this Cerner Sales Order and the Cerner Business Agreement, dated July 01, 2016, between Client and Cerner (the “Agreement”).

Client understands that hand-written changes to this Cerner Sales Order will not be accepted. Client will engage their Cerner Sales Contact to request any revisions before execution or to amend following execution through a written agreement executed by both parties.

FINANCIAL OVERVIEW

Description	One-Time Fees	Monthly Fees
SOLUTIONS		
Shared Computing Services	156,800.00	20,834.00
TOTALS:	156,800.00	20,834.00

All prices in this Cerner Sales Order are shown in USD. Pricing is valid until September 30, 2023. If this Cerner Sales Order is not executed on or before such date, this pricing is considered null and void and will be subject to revision.

Not applicable is indicated by "- -".

PAYMENT TERMS

ONE-TIME FEES			
Description	Payment Number	Percent (%) Of Total Due	Payment Due
Shared Computing Services	1	100%	On integration testing

MONTHLY RECURRING FEES		
Description	Percent (%) Of Total Due	Payment Due
Shared Computing Services	100%	Quarterly beginning on integration testing

TERM AND TERMINATION

Other Services. Unless otherwise set forth herein, all other recurring Services (such as subscription services, application services, shared computing services, employer services, recurring professional services, and managed services) begin on integration testing and continue for the term set forth in the "Solutions", "Professional Services", or "Managed Services" sections.

FEE INCREASES

Cerner may increase the monthly fee for Support services and each recurring service (such as managed services, application services, subscription services, application management services, employer services, transaction services, and Shared Computing Services) any time following the initial twelve (12) month period after such recurring service fees begin (but not more frequently than once in any twelve (12) month period) by giving Client sixty (60) days prior written notice of the price increase. The amount of such annual increase will equal lesser of CPI or 3% per annum. Cerner may also increase the fees at any time during the term if a Cerner third party supplier increases the fees to be paid by Cerner, with such increase being limited to the amount of increase in Cerner's fee to the third party supplier.

SCOPE OF USE

Client will use the solutions set forth in this Cerner Sales Order in accordance with the Documentation and subject to the scope of use limits set forth in the Solutions section. In the event Client requests additional scope beyond the limits set forth in the Solutions section and no Per Unit Expansion Fees are referenced therein, Client must execute a new Ordering Document setting forth the additional scope and fees at Cerner's then-current rates.

Scope of use will be measured periodically by Cerner's system tools, or, for metrics that cannot be measured by system tools or obtained through industry available reporting sources (e.g. FTEs or locations), Client will provide the relevant information (including records to verify the information) to Cerner at least once per year. Client agrees that if an event occurs that will affect Client's scope of use (such as the acquisition of a new hospital or other new facility), Client will notify Cerner in writing of such event no later than 30 days following the effective date of such event so that Client's scope of use can be reviewed. Any additional fees due under this Section will be payable within 30 days following Client's receipt of an invoice for such fees. Any additional monthly fees will begin on the date the limit was exceeded and shall be paid annually (pro-rated for any partial month).

The pricing in the Solutions section of this Cerner Sales Order is based on the following scope of use metrics, which are defined as follows.

Scope of Use Metric	Scope of Use Definition
Each	Every one of a solution, service, transaction, or technology item, regarded and identified separately.
Annual eVisits	The total number of single patient encounters performed each year by a physician or other qualified health professional with an established patient using a web-based or similar electronic-based means of communication.

FACILITIES

Permitted Facilities. For use and access by these facilities:

Name	Address	City	State/ Province	Zip/Postal Code	Country
County of Ventura	800 S Victoria Ave	Ventura	CA	93009-0001	United States

The parties may add or substitute Permitted Facilities by amending this section.

PASS-THROUGH PROVISIONS

Where pass-through provisions are applicable to third-party products and services, these provisions are referenced by a pass-through code in the "Solutions", "Equipment/Sublicensed Software", "Professional Services", "Application Management Services", or "Managed Services" sections of this Cerner Sales Order, and that code can be entered at <https://passthroughprovisions.cerner.com> to view the pass-through provisions.

ADDITIONAL TERMS AND PROVISIONS

SHARED COMPUTING SERVICES

Client Responsibilities. Client agrees to comply with all applicable laws, rules, and regulations as they relate to its use of the Services and its provision of the Services to Users ("Laws"), including, but not limited to, HIPAA, state medical privacy and security laws, and state and federal laws applicable to sensitive categories of medical information, such as mental health, alcohol and drug abuse, genetic, and AIDS/HIV information. Client or its Users must obtain all appropriate and necessary authorizations and consents to access, use, and disclose any personally identifiable information in compliance with applicable Laws (including, but not limited to, the Health Insurance Portability and Accountability Act of 1996 and the Telephone Consumer Protection Act) and the Agreement. Client must have security and privacy policies and procedures in place that govern its Users' ability to access information on or through the Services and to prevent unauthorized access, use, and disclosure of personally identifiable information including, but not limited to, protected health information.

Medical Record. The Services do not constitute a medical record. Client and its Users are responsible for ensuring that the information sent through the Services is incorporated into the applicable patient's medical record as necessary. Client acknowledges that the health information exchanged through the Services may not include the individual's full and complete medical or encounter record or history. Cerner may leverage a public cloud infrastructure to provide the Services.

Access to Data. Cerner may use and disclose the Data as necessary to perform, analyze and improve the Services, to the extent permitted by law. Cerner may use and disclose performance and usage data for any purpose permitted by law so long as the data does not contain protected health information as defined under HIPAA or Client-specific identifiable information. Data means data that is collected, stored, processed or generated through Client's use of the Services.

Right to Aggregate. Cerner may use or disclose protected health information, as defined by 45 C.F.R. 160.103, to provide data aggregation services as permitted by 45 C.F.R. 164.504(e)(2)(i)(B), including use for statistical compilations, reports and all other purposes allowed under applicable law.

De-identify and Use Rights. Cerner may de-identify protected health information in accordance with the standards set forth in 45 C.F.R. 164.514(b) and may use or disclose such data unless prohibited by applicable law.

Information Management Tools. Client acknowledges and agrees that the Services are information management tools, many of which contemplate and require the involvement of professional medical personnel, and because medical information changes rapidly, some of the medical information and formulas may be out of date. Information provided is not intended to be a substitute

Cerner Confidential Information

© Cerner Corporation. All rights reserved. This document contains confidential and/or proprietary information belonging to Cerner Corporation and/or its related affiliates which may not be reproduced or transmitted in any form or by any means without the express written consent of Cerner, subject to the terms of the Agreement and applicable law.

SHARED COMPUTING SERVICES

for the advice and professional judgment of a physician or other professional medical personnel. Client acknowledges and agrees that physicians and other medical personnel should never delay treatment or make a treatment decision based solely upon information provided through the Services. Client further acknowledges and agrees that the Services are not intended to diagnose disease, prescribe treatment, or perform any other tasks that constitute or may constitute the practice of medicine or of other professional or academic disciplines.

THIRD-PARTY SERVICES

Certain Services have been developed by Cerner's third-party suppliers (the "Third-Party Services"). The Third-Party Services may be provided under the required terms of the applicable supplier, which will be available on Cerner's website. Cerner is not liable under this Cerner Sales Order for any damages of any kind or nature related to or arising out of Third-Party Services. Cerner does not warrant or provide any indemnities on Third-Party Services. To the extent that any third-party pass-through provisions contain liability limitations with respect to the Third-Party Services, such limitations state the total maximum liability of Cerner (and then only to the extent that Cerner can collect from the supplier for Client's benefit) and each supplier with respect to the Third-Party Services.

CERNER SALES ORDER

EXHIBIT A SCOPE OF SERVICES

This Exhibit A defines the Service deliverables (“**Scope**”) for the Services set forth in this Cerner Sales Order.

SOLUTION DETAIL SCOPE

Third-Party Services. Capitalized terms used in third-party Scope shall have the meanings ascribed to them herein, or as set forth in the applicable third party’s pass-through provisions. Where there is a conflict between the definitions in third-party Scope and the Agreement, the definitions in this Exhibit A shall control, but only with regards to the subject matter set forth herein.

AMWELL ON DEMAND INTEGRATION

(AW-25001C)

Cerner Tasks/Activities

- Assist Client in achieving project readiness for strategy, data, and solution implementation
- Manage and leverage project plan for events and activities associated to implementation
- Guide Client through design decisions impacting features and workflows. This Includes the following workflow areas:
 - o Scheduling Build
 - o Encounter Creation
 - o HL7 Discussion
 - o Check-In Process
 - o Pre-Registration Workflow
 - o Full Registration Workflow
 - o Financial Clearance Workflow
- Provide guidance and support for build being performed by Client
- Complete action items to assess current state, identify improvement opportunities, and direct localization, testing and implementation
- Perform build related to *MPages* view and *Cerner Millennium* requirements of the solution for 1 non-production domain and 1 production domain
- Complete internal validation of feature functionality prior to client validation
- Provide training to Client project team analyst(s) in a train-the-trainer scenario

AMERICAN WELL CORPORATION: CONVERGE SETUP FEE OR SCHEDULED VISITS WITHIN THE CERNER EHR (MIGRATION) (AW-EP-SU-CON, AW-I-EHR-MIG-CERN)

- o Supplier will strive to have no known issues at the conclusion of SIT and UAT. However, non-critical exceptions may be noted for resolution at a later date. The criteria for acceptance ("Acceptance Criteria") are as follows:
 - 0 critical issues. (Critical issues include: The system as a whole crashes or does not perform under load conditions. The system stops responding or data corruption occurs. Functions are missing or crashing. A critical bug makes the entire system or a specific module unusable and typically halts or dramatically slows productivity.)
 - 0 blocking issues (Blocking issues include issues that prevent functionality from being tested. Blocking issues can also include critical issues that have a workaround.)
 - All test scripts have been completed
 - Completion and signature of the System Acceptance Gate Form by Client
- o Upon conclusion of SIT and UAT, Supplier will request that Cerner request that Client formally document system acceptance, via the System Acceptance Gate Form. Go-live/First Productive Use of the Supplier Platform will not be allowed until such time as Client completes, signs, and sends the System Acceptance Gate Form to Supplier and Cerner.
- Tenant Installation
 - o Provisioning of the subdomain(s) on the Converge Platform for the applicable Module(s) purchased
 - o Each subdomain represents a Client tenant, which provides providers and patients secure access to the Converge Platform for use of the specified Module(s).
- Branding
 - o Supplier will support Client with the creation and initial branding of the tenant(s) for the applicable Module(s) purchased. Initial branding will include:
 - Initial setup of service name and service logo
 - Branding of the tenant/subdomain using Client's selected telehealth name
- Provider and Clinical Staff Training
 - o Telehealth 101: 1-hour introduction to telehealth (pre-recorded video or remote live session)
- Modules
 - o Client has purchased one of the Modules available on the Converge Platform
- Client Project Team Training
 - o Supplier will provide hands-on training to Client's project team in preparation for Supplier Platform design. This training spans the functional and technical aspects of the Supplier Platform. System administrators are trained in the Supplier Platform workflows and administrative functionality. The technical team is trained by Supplier technical staff to understand the configurable technical components of the system and data integration aspects.
 - o Client training includes:
 - Product training
 - Technical training
 - Provider user guide

	<ul style="list-style-type: none">Estimated Supplier Work Effort: The final scope and timeline will be determined upon finalization of Client's requirements.
Module Overview	<ul style="list-style-type: none">Scheduled Visits ModuleThe Scheduled Visits Module is used for ambulatory care or outpatient visits for a variety of lower-acuity conditions (e.g., chronic care, primary care). The Module allows providers to schedule patient visits directly from the electronic health record (EHR) and via <i>Amwell Now</i>.<ul style="list-style-type: none">Scheduled visits within the EHR: For health systems looking to improve and expand telehealth care delivery, Client will have access to an EHR-embedded scheduled visits solution that allows providers to launch visits from the EHR and patients to join through the patient portal, text, or email invite.Scheduled visits with <i>Amwell Now</i>: <i>Amwell Now</i> is designed to enable quick and easy access to virtual visits leveraging the new Converge platform's enhanced video reliability and connecting speeds. Following a self-service activation, providers can start having telehealth visits with patients by sending invites through text message or email. Customized branding paired with easy scaling allows health systems to quickly set up virtual care programs under the brand patients trust.Strategy<ul style="list-style-type: none">Telehealth success checklist: A guide designed to help ensure Client's program has the key ingredients for successMarket analysis: Analysis of Client's market share and patient origin as it relates to scheduled visits to help inform Client's marketing strategyPatient survey: Survey sent to patients in Client's catchment area to determine Client's patients' readiness and preferences for telehealthReimbursement guidelines: Supplier provides materials (reimbursement overview, regulatory landscape, and guidelines for conversations with plans) designed to optimize telehealth reimbursement for Client's scheduled visits programBilling guidelines: Best practices for billing and proper codes to use for a scheduled visits programContracting resources: Resources to use should Client contract with a health planImplementation Services<ul style="list-style-type: none">For Scheduled Visits within the EHR<ul style="list-style-type: none">Kickoff/Mapping workshop: A working session where Supplier will collaborate with Client to:<ul style="list-style-type: none">Detail Client's telehealth goals and objectivesValidate specialties for Scheduled VisitsInform project schedule and staffing needsCoordinate project resources with EHR/resource planningWorkflow assessment: Review EHR workflow and confirm high-level assumptions for Client's desired telehealth workflow

CERNER SALES ORDER

EXHIBIT A SCOPE OF SERVICES

AMERICAN WELL CORPORATION: CONVERGE SETUP FEE OR SCHEDULED VISITS WITHIN THE CERNER EHR (MIGRATION) (AW-EP-SU-CON, AW-I-EHR-MIG-CERN)

- Workflow Setup: Configuration of the Scheduled Visits Module
- Provider and Staff Setup: Setup of Client's providers and clinical staff (initial set) within the Scheduled Visits Module
- o For *Amwell Now*:
 - Platform configuration: Client will receive a subdomain of *Amwell Now* that can be customized to Client's brand. Each subdomain is then tied to a specific email domain, allowing Client's employees to sign up and activate their telehealth account using their health system email address. Client will also have access to reporting for the *Amwell Now* service.
 - Client's own branding: Customized branding with Client's telehealth service name, logo, and visuals. Branding features include:
 - Provider Sign-up
 - Provider "Start a visit" screen
 - Patient "Join" screen
 - Patient invite
 - Visit Console
 - End Visit/Thank You screen
- Provider Training
 - o On-site Train-the-Trainer: Instructor-led training during Client's implementation for Client's super users
 - o American College of Physicians (ACP) Telemedicine Continuing Medical Education (CME) Program: Access to an online educational program through the ACP that covers the benefits of using telemedicine as well as practical steps on how to incorporate it into Client's practice
 - o *Amwell Academy*: Access to product and clinical training programs through Supplier's Learning Management System; options to allow providers to self-register or for Supplier to bulk upload users via CSV
 - o Documents and job aids: Supplier provides a series of user guides and other training assets that can be incorporated into Client's provider training program.
- Engagement Services
 - o Supplier's Engagement Services team will share best practices and materials designed to help launch and grow Client's scheduled visits telehealth program. Assets cover 3 key areas – staff education and support, patient education and promotion, and technical support materials. These services only apply for scheduled visits within the EHR and do not apply for scheduled visits with *Amwell Now*.
 - o Best Practices for Scheduled Visits
 - o Staff Education and Support
 - Helps Client's front office staff, schedulers, and supporting teams understand Client's telehealth program and provides tools to assist patients with navigating scheduled visits
 - Scripting for schedulers
 - Flyer for in-clinic staff
 - Launch announcement email for staff
