The estimated amounts in the table above consist of both professional fees and out-of-pocket expenses. Professional fees will be calculated by multiplying the actual hours worked by discounted average hourly rates ranging from \$275 - \$500 depending on the personnel performing the work. Of the above estimated total, the sum of \$700,000 represents professional fees.

In addition to professional fees, Wipfli will bill out-of-pocket expenses incurred in the course of our work, such as cost report software licensing fees, express mail or overnight delivery service, travel and incidental office expenses. * The expenses which may include mileage will be at the IRS published guidelines for mileage reimbursement and paid in accordance with County reimbursement policies. Of the above estimated total, the sum of \$10,000 represents out-of-pocket expenses.

If additional work is needed beyond the scope of services listed in the table above, Contractor will bill for these services at normal hourly rates upon written notification and County approval of the scope of work and projected fees. Examples of out-of-scope work are hospital cost report appeals, FQHC CSOSR appeals, reopening of cost reports, etc.
