Dear County Supervisors,

I am writing to you with deep concerns about the Voters Choice Act (Senate Bill 450, 2016). This type of election model provides greater flexibility for fraud and convenience for uninformed, misinformed, uneducated, and dead voters to be in charge of our state. The continued use of mail-in ballots, unsecured drop boxes, and centralized ballot tabulation machines creates an absence of overall integrity. Same-day voter registration should be removed for its inability to verify voting eligibility. These reasons and others instill an optic of distrust in a process that is considered a sacred act in preserving our Republic.

At the last board meeting (January 23, 2023), comments about transparency were a concern among the County Supervisors. I'm hoping your concern for transparency will be a focus for discussing a change back to one-day elections. This should be the highest fundamental priority of our elected officials. The County of Ventura should be an example to all counties demonstrating the highest standards. I am urging the Ventura County Board of Supervisors to withdraw from the Voters Choice Act and go back to the "One Day Polling Place Precinct Voting Model" with paper balloting and hand counting. This is the way it was done only a few short years ago.

Tabulation machines deprive the voters of being witnesses in elections. This violates the People's basic Right of Suffrage and deprives the People of a guaranteed republican form of government.

We the people of Ventura County delegate to the County Board of Supervisors the responsibility to stand against election processes legislated from Sacramento which removes full transparency and trust. It is time to say NO to Sacramentos' power-hungry domination.

Please note that not one country in the world legalized a 30-day election.

Respectfully,

Delilah Orloff
