Dear Board Members,

You were elected to the Board of Supervisors to represent the people of Ventura County. Our 2040 General Plan was adopted to promote a future where all of us could thrive. We have a climate crisis that is an existential threat to our health and wellbeing. All of you on the Board must know that we are endangered by a lack of control over oil and gas pollution.

Are you willing to agree to a settlement with the oil and gas industry that compromises our future? Why would you sell us out by doing this? Why won't you stand up and support the reasonable regulations in our General Plan? You even have the support of the California Attorney General who will help our County prevail instead of giving in to short-sighted demands from special interests.

Be strong for Ventura County! It is a cowardly act to approve a settlement. Fight the lawsuits and let the Court decide!

Sincerely,

Gordon Clint

4102 Greenwood Street, Newbury Park
