I'm writing to express my complete lack of support for this project. The area is far more suited to ocean/fish than themed businesses, and, in my opinion, the proposed project is unlikely to be used by the local community. I attended a meeting when the project was being discussed, and there was a complete lack of support from all attendees, but their opinion seems to have been ignored by the decision makers. I received an email asking for letters of support, but no equivalent email asking for opposing views.
