Good morning, Ventura County Board of Supervisors,

I would like to offer my voice, along with many others, to the hope that the entire Board will support and approve the amendments under Item #36.

Please, vote in approving the amendments for security and equipment upgrades, licenses, warranties and extending the agreements for the next 10 years. With over 510,000 registered voters in Ventura County, we cannot regress to

counting paper ballots by hand. By hand?!? Besides, hand counting being against the law based on the number of registered voters, I and thousands of other voters in our county definitely appreciate the option of voting by mail or having the opportunity to vote in-person at the voting centers.

The use of Dominion products has been instrumental in our elections progress by providing much more accuracy and saving time. The cost of having people hand-counting ballots, the space that would be needed and all the logistics involved we be exorbitant! Money that can certainly be used elsewhere in helping more voters participate in our democratic process.

I believe Mark Lunn and now Michelle Ascension have been extremely diligent with our fair and secure election processes in Ventura County.

Your vote to approve the amendments proposed in Item #36 is crucial to our continued success in our elections in Ventura County.

Thank you for your continued support of our democracy and for your consideration.
