### **Re: Approval Of General Plan Settlement**

Dear Supervisor Long:

Greetings from Ventura County LULAC Councils 3147, 3026, and 3308. As key tenet of our mission is to advance the economic condition of our community, I am writing on their behalf to express our strong support for Ventura County's General Plan Settlement agreement under consideration at tomorrow's board meeting.

The oil and gas industry employs persons from all backgrounds and prioritizes opportunities for union members and veterans. In addition, on July 13, 2019 our National Assembly unanimously passed a resolution in support of the thousands of Latinos employed in the industry nationwide.

We fully support a transition to cleaner forms of energy. As this moves forward, we need locally produced energy to ensure affordability and jobs that support local families.

Therefore, please consider the expressed will of our members in supporting approval of this settlement.

Respectfully submitted,
