Dear County Board of Supervisors,

I am writing to you with deep concerns about the Voters Choice Act. The continued use of mail in ballots, unsecured drop boxes along with centralized ballot tabulation machines creates a mistrust in the current processes and procedures.

The same day voter registration should be removed also for its inability to verify eligibility to vote.

.

At the last board meeting (Oct. 17, 2023), comments about transparency were a concern among the County Supervisors. I'm hoping your concern for transparency will be a focus for discussing a change back to one day elections.

This should be one of the highest fundamental priorities of our elected officials. The County of Ventura should be an example to all counties demonstrating the highest standards.

I am asking Ventura County Board of Supervisors to withdraw from the Voters Choice Act and go back to the "One Day Polling Place Precinct Voting Model" with paper balloting and hand counting.

Tabulation machines deprive the "People" to be witnesses in elections. This violates the People's basic Right of Suffrage and deprives the People of a guaranteed republican form of government.

We the people of Ventura County delegate to the County Board of Supervisors the responsibility to stand against election processes legislated from Sacramento which removes full transparency and trust.

Our Board of Supervisors should defend the residents of Ventura County from legislative overreach. I reject the implementation of The California Voters Choice Act in our County.

I am appealing to your duty to represent the will of the people and to protect and ensure that the sacred act of voting is conducted without even the appearance of any impropriety and to use the most cost effective election model for the taxpayers of Ventura County. I'm urging the county Board of Supervisors to add an agenda item to discuss these important issues to increase transparency in our election process.

Thank you for your time.

Respectfully,
Lisa Rudner
District #2
