Dear Board of Supervisors,

I am a resident of the County and a voter and **I do not support** a settlement with the oil companies.

The Ventura County General Plan public input process was conducted over a four-year period, allowing numerous opportunities for citizens and special interest groups to provide their input. Special interest includes oil companies. Why should this group now have the option to change course and sue the County of Ventura to make amendments to the General Plan?

*I'm urging this Board to expand, not limit the effectiveness of the oil well safety buffer policy and not allow the oil industry to re-write and weaken policies limiting unnecessary emissions of toxic pollutant.*

Our country has experienced the highest temperatures, flooding, drought and other climatic disasters----just in one year. Ventura County leaders are allowing the oil industry to rewrite policies meant to regulate them. Put the health and safety of Ventura County residents first and do not support a settlement.

Best,

Faith Grant
