Subject: #36

Please include this statement from a fellow constituent of District #1- Matt LaVere.

I, Jennifer Hansen, am both troubled and concerned with the lack of transparency regarding our elections in Ventura County. But what's even worse, is that Matt LaVere, along with Kelly Long, are both spearheading a contract with the Dominion Machines in our area until 2033. There is so much evidence showing issues and uncertainty/outliers with these voting systems.

Where is the impartial oversight committee that can act as an impartial 3rd party to restore trust where it has been lost?

Also at play is mail in ballots, no ID required when voting, out of date Voter Rolls, etc. If everything is on the up & up, who'd have a problem with assuring the citizens that all is fair and transparent? If the Board of Supervisors were held individually responsible for inaccuracies and fraudulent activity through court case victories, would they then take things more seriously?

I am 100% okay with the outcome of a fair, free & secure election. It's when the laws and constitution get trampled on, along with evidence that has been clearly presented to OUR government ELECTED officials, gets ignored, that I won't tolerate, at least without demanding accountability.

I am beyond discouraged, as we approach the 2024 presidential election.

If you would be kind enough to let we know this email got submitted and is in record, I'd greatly appreciate it.

Sincerely,

Jennifer Hansen
