Dear Water Right Holder(s),

You may have received a second email on October 3, 2024, containing the 1st Quarterly Basin Assessment for WY2024. Due to a technical error, not all authorized designees or recipients to a single WMID received the initial invoice released on October 2, 2024. Staff worked expeditiously to identify and rectify the matter and released the second invoice which was limited to the affected WMIDs. Information contained on both invoices is the same, except the release date.

Should you have additional questions, please contact LPV.Watermaster@ventura.org.

Thank you,

LPV Watermaster
