It is recommended that the City Council:

1. Receive an update on the local emergency declared on December 21, 2023;
2. Ratify the adoption of a resolution of the Declaration of Local Emergency resolved by James Vega as the Director of Civil Defense Disaster Services on December 21, 2023;

Consider the adoption of a resolution of the City Council of Port Hueneme, California, ratifying and extending the proclamation of a local emergency issued by the Director of Civil Defense and Disaster Services on December 21, 2023 due to flooding and rainstorm impacts under Government Code Section 8630 and Chapter 2 of the Port Hueneme Municipal Code ("Disaster Council"); or termination of local emergency.

BACKGROUND/ANALYSIS:

On or about the early morning hours of December 21, 2023, the City of Port Hueneme ("City") experience torrential rainfall, which resulted in substantial flooding throughout the City. The flooding has damaged residential homes, City facilities, and various properties throughout the City, and has resulted in the evacuation of several residents.

On December 21, 2023, pursuant to Government Code section 8630 and Port Hueneme Municipal Code section 3104(a), the City Manager, as Director of Civil Defense Disaster Services, declared a local emergency to address the conditions within the City, which included "existence of conditions of disaster or of extreme peril to the safety of persons and property within the territorial limits of a . . . city caused by conditions such as . . . flood [or] storm . . ." (Gov. Code § 8558, subd. (c)). This Resolution is attached hereto as "Attachment A."

A local emergency declared by a local official pursuant to a local ordinance may not extend beyond seven (7) days unless the legislative body ratifies the action. (Gov.

Code § 8630, subd. (b)). In addition, the City Council must review the necessity of continuing the local emergency at least one every sixty (60) days.

The current conditions within the City include significant flooding and damages resulting thereof, with cleanup efforts and costs expected to extend past the initial 7 day period.

Given the current situation, as expressed above, it is recommended that the City Council extend the declaration of local emergency for a period not to exceed sixty (60) days unless earlier terminated pursuant to Government Code section 8630, subdivision (d).

FISCAL IMPACT:

The City experienced significant damages as a result of the flooding and storm. The declaration of emergency is intended to aid the City in potentially recovering costs related to these damages.
