Resolution

The County Executive Officer and the Director of the Ventura County Health Care Agency or their designees are hereby authorized during Fiscal Year 2025-26 to make adjustments, additions, and changes (hereinafter "adjustments") to the Chargemaster approved and adopted by the Board in Paragraph 5, of the Budget Resolution; that such adjustments include, but are not limited to, the addition of new billing codes, deletion of obsolete billing codes, increases and decreases in the prices of existing services and addition of prices for new services; and that such adjustments shall be consistent with the market value of services and the reasonable and customary practices of the hospital and ambulatory care clinic industry in California and shall take into account the County's cost recovery principles regardless of the increased or decreased amount. The County Executive Officer and the Director of the Ventura County Health Care Agency or their designee(s) are hereby also authorized to make corrections in the Chargemaster and make adjustments and compromises to hospital and ambulatory care clinic charges and associated codes pursuant to Health and Safety Code section 1473 and/or other governmental rule or regulation.

Additional Information

Many items are not subject to price updates, such as charges for items received without cost to County under certain programs such as child immunizations, and pass-through items such as Reference Laboratory and Blood Product services where pricing for services is governed by a regulation or statute. Most Pharmaceutical items have iterative pricing determined by cost updates in real-time, and items acquired under the 340b federal drug discount program where pricing is determined by another regulatory agency such as the Centers for Medicare and Medicaid Services. Compliance with the terms of participation and associated billing regulations are given the highest priority. Overall pricing for items presented for consideration were devised utilizing sample comparative data from other peer hospitals to maintain market-based pricing. The majority of prices would be increased, however those subject to pricing regulations would be unchanged. The overall impact is anticipated to provide an increase of approximately ten percent (10%) in the average charge since our last price change on July 1, 2024. The Appendix contains a list of such charges.
