Ventura County Board of Supervisors,

I urge you to stand firm and keep the provisions in the 2040 General Plan as they are. Do not give in to the oil industry and make the provisions unenforceable.

The 2040 General Plan has the backing of California Attorney General Bonta and Ventura County residents.

The Board has a responsibility to protect communities. Oil industry operations cause numerous health problems, some of which can lead to premature death.

Our only hope for alleviating the climate crisis is to stop extracting fossil fuels. The provisions in the 2040 General Plan are a critical step in making this happen.

Please protect Ventura County communities and our future - no amendments to the 2040 General Plan - no allowing the oil industry to do what it wants at the expense of everyone else.

Thank you,

Ann Dorsey
