PERSONAL INJURY

STATE THE NATURE AND EXTENT OF CLAIMANT'S INJURY WHICH FORMS THE BASIS OF THIS CLAIM:

LIABILITY

INDICATE HOW THE ACCIDENT HAPPENED, WHY YOU FEEL THE COUNTY IS LIABLE AND NAME OF INVOLVED COUNTY EMPLOYEE(S):

The County negligently failed to construct and/or maintain its flood control facilities, directly resulting in flooding damage to Claimant's property. Further, the County took affirmative actions to modify the run-off patterns so that rain, mud and debris were directed onto Claimant's property during storm events. In part, this was to protect County-owned roadways and other properties to the detriment of Claimant's property. Much of the run-off came from County-owned property at Foster Park the and surrounding area.

NOTICE TO CLAIMANT

In order for your claim to receive proper consideration you are requested to supply the information called for on both sides of this form. All material facts should be stated on this form, as it will be the basis of further action upon your claim. The instructions set forth below should be read carefully before the form is prepared.

INSTRUCTIONS

Claims must be signed by the property owner, injured party, or the person representing the claimant. Unsigned claim forms cannot be honored. See Government Code §910.2.

The amount claimed must be substantiated by competent evidence before a claim can be paid. Whether attached to the claim form, or submitted subsequently, evidence supporting the amount claimed may include:

- (a) In support of a claim for personal injury or death, the claimant should submit documentation evidencing the injuries sustained, treatment rendered, the degree of permanent disability, and evidence of paid medical bills. It is recommended that medical evidence **NOT** be attached to the claim form, but that such substantiation of damages be provided upon request. The Claim Form and attachments thereto is a public record and subject to public inspection.
- (b) In support of claims for damage to property which has been or can be repaired, submit at least two itemized signed repair estimates or statements of damages by reliable, disinterested concerns, or if payment has been made, the itemized signed receipts evidencing repaired and payment.
- (c) In support of claims for lost property or property that cannot be economically repaired, submit documentation of the original cost of the property, the date of purchase, and the value of the property before and after accident. The statements demonstrating the value of the property should be by disinterested competent persons, preferably reputable dealers, persons familiar with the type of property, or advertisements for the same or similar property.

The completed Claim Form must be mailed or delivered to the **Clerk of the Board of Supervisors** at the address on the prior page. Questions should be directed to the County of Ventura, CEO Risk Management Department at (805) 654-3197.

NARRATIVE IN SUPPORT OF GOVERNMENT CLAIM

Date: June 22, 2023

Claimant: Dennis Ryder

Location of Incident: [REDACTED] Casitas Vista, Ventura CA 93001

This claim arises from serious flooding, including water, mud and debris flows, onto Claimant's property, as the result of the County-owned and County-maintained culvert forcing water and debris onto Claimant's property between and during January 9, 2023 through April 1, 2023. The culvert runs under Casitas Vista Road, 10 to 15 feet west of Claimant's driveway entrance. The culvert is six feet wide, six feet high and approximately 50-feet long under Casitas Vista Road.

In the first of several rain events, January 9-10, 2023, the culvert in question was quickly blocked with debris and the debris blocked additional culverts, forcing water onto Claimant's driveway and into his house, barn, poolhouse, guest house and garage, destroying landscaping, and filling the pool with mud and debris.

There were subsequent rain events in February 2023, and rain continued into mid-March 2023, when County workers re-directed flow from its normal pathways, putting in boulders to block the flow from going down the street (away from Claimant's property) and into existing flood control culverts and then into the Ventura River. Instead, the culverts directed a significant portion of the water onto Claimant's property. This caused significant additional damage, above what had already happened after the January storms.

The County's storm drains failed in 2017 as well, causing damage to the Ryder property, so the County was fully aware that these drains were not properly constructed and/or maintained.

Damages:

A partial quantification of the damages is attached, along with some estimates. Total damage is currently estimated at \$716,166.00 although additional damages will be added as clean-up of the property moves forward and the full extent of the damage is revealed. Estimates for damage to personal property in the house and accessory buildings have yet to be obtained as Claimant is still clearing out mud and debris. Total damages, including rental costs, lost income, real property losses, and personal property losses, are expected to be in excess of \$1.4 million.

At one point, Jeff Pratt, Public Works Director, suggested that the County purchase the property at [REDACTED], as it would be efficient to create a flood control basin on the property, and protect multiple properties from flooding in the future. To that end, Claimant obtained a valuation for the property, which amounts to \$1.3 million.

Photos of the flooding and the resultant damage are available upon request.

PROPOSAL

From: Manny Garcia – CIE 805-797-7168

Attn: Dennis Ryder

Project: [REDACTED]

Date: 6/5/23

Scope of Work:

The 2022/23 rain season has caused significant damage to this property depositing appr. 400-500 yards of flood related sediment and debris.

Because the material/soil is mixed with burnt wood, logs, trash etc. most of the mixed material will have to go to the landfill, at a substantial extra cost. The price below outlines in a bid form the cost to clean up and haul off said material. Clean up could take 20-30 working days, no weekends, holiday or overtime.

CIE labor & equipment	\$150,000
Trucking	\$96,000
Dump Fees	\$98,000
Total	\$344,000

****Please read exclusion sheet****

Exclusions & Conditions

Price does not include soils testing, permits, water fees or water meters, soil stabilization, import or export of fill material, site to balance.

- A. During grading excessive rock may be encountered. Price does not include extra time required to facilitate removal, separation, loading or hauling.
- B. Moisture/Water clause – any condition requiring soil stabilization, pumping, material drying time, or any delay caused by wet material will be considered an extra and be charged on a time and material basis.
- C. Erosion control will be done on a time and material basis, as required by weather or county inspector and is not included in this bid. Execution of erosion control plan or correction of erosion damage to be done on a time and material basis, during period of contract. Extended erosion control not in contract.
- D. Any delays caused by unmarked utility repair or discovery of said utilities will be charged on time and material basis.
- E. Price is based on cost of one move in & out for all equipment.
- F. Above items are subject to change pending USA findings
- G. Unless outlined in this bid, all other work will be charged on a time and material basis and is the responsibility of the owner/general to determine if proposal is complete.
- H. Price does not include AC and concrete removal, repair or replacement, tree pruning, removal, protection or replacement as well as additional costs due to environmental or archeological concerns.
- I. Proposal valid for 30 days from date of email.
- J. Price excludes accommodation, removal, tie in, abandonment, backfill, etc. of existing uncharted conduits, leach lines, septic tanks, leach pits, etc.
- K. Any unforeseen condition not caused by CIE causing delay to project will result in extra cost for re-mobilization, material return, delay in schedule, monetary loss for incomplete days, etc. will be charged on a time and material basis.
- L. CIE reserves the right to make safe at owners expense any job site where conditions causing CIE to pre-maturely stop work or move out.
- M. A finance charge of 1.5% per month, APR18%, or the maximum allowed by California law, will be assessed in invoices 30 days past due.
CIE will have complete and continuous access to work area during construction. Additional insured certificates for Liability and Worker's Comp will only be issued before commencement of work. *Payment Schedule: Unless payment is made within 20 days of start an automatic pre-lim notice will be issued.*

The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payments will be made as outlined above.

The Subject property in the fall of 2022 would be given a minimal Valuation of \$1,300,000. Given the properties acerage, number of structures, and over all use in its general condition in a general area between Cities of Ventura and Ojai. Out of seven comparable properties the base line of like for like properties supports *this valuation. If anything, there were many properties selling above and beyond,* however larger in size, scale and upgrades. Properties like this one are aways desirable and rare to find. The valuation rests on the use of the main house, a three bedroom 2 bath with many upgrades, a second dwelling, large deck, swimming pool, and horse coral.
