Independent Auditor's Report

To the County Board of Supervisors
County of Ventura, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Ventura County Treasury Investment Pool (Investment Pool) of the County of Ventura, California (County), as of and for the year ended June 30, 2024, and the related notes to the financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Investment Pool of the County, as of June 30, 2024, and the changes in its financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Investment Pool and the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Investment Pool of the County are intended to present the financial position and changes in financial position of only the portion of the County that is attributable to the transactions of the Pool. They do not purport to, and do not, present fairly the financial position of the County as of June 30, 2024, the changes in its financial position, or where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 – 6 be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information

in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2025, on our consideration of the Investment Pool of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Investment Pool of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Investment Pool of the County's internal control over financial reporting and compliance.

A handwritten signature in cursive script that reads "Eide Bailly LLP".

**VENTURA COUNTY TREASURY INVESTMENT POOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2024 (UNAUDITED)**

As management of the Ventura County Treasury Investment Pool ("Investment Pool"), we offer readers of the Investment Pool's financial statements this narrative overview and analysis of the financial activities of the Investment Pool for the fiscal year ended June 30, 2024.

The following analysis primarily focuses on the Investment Pool's current year results in comparison with the prior year. We encourage readers to consider the information presented herein in conjunction with the accompanying basic financial statements.

Financial Highlights

- The Investment Pool's total net position on June 30, 2024, increased by \$328.2 million, or 7.7%, compared to the prior-year period.
- The Investment Pool's net investment income in 2024, which includes interest income and the net change in fair value was \$233.0 million, compared to a net investment income of \$129.3 million in 2023.
- The Investment Pool's expense ratio was at 0.05% of the average daily balance for the current year, compared to 0.04% for the prior-year period.
- The weighted average maturity of the Investment Pool was 304 days on June 30, 2024, compared to 247 days in the prior-year period. The Investment Pool is a fixed-income, interest-rate sensitive portfolio with no direct exposure to equities, commodities, or global markets.

Overview of the Investment Pool Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements. The Investment Pool's basic financial statements consist of two components:

- 1) Statement of Net Position and Statement of Changes in Net Position;
- 2) Notes to the Basic Financial Statements

The Statement of Net Position presents information on the Investment Pool's assets and liabilities, with the difference between the two reported as *net position*.

**VENTURA COUNTY TREASURY INVESTMENT POOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2024 (UNAUDITED)**

A summary of the Investment Pool's net position is presented below.

Statement of Net Position

	June 30, 2024	June 30, 2023	Increase/(Decrease) Amount	Percentage
Assets				
Cash and Deposits	\$ 289,654,636	\$ 185,606,799	\$ 104,047,837	56.1%
Investments	4,291,789,933	4,091,859,832	199,930,101	4.9%
Trade Receivable	24,132,784	-	24,132,784	100.0%
Interest Receivable	621,574	524,093	97,481	18.6%
Total Assets	<u>4,606,198,927</u>	<u>4,277,990,724</u>	<u>328,208,203</u>	7.7%
Net Position	<u>\$ 4,606,198,927</u>	<u>\$ 4,277,990,724</u>	<u>\$ 328,208,203</u>	7.7%

A summary of the changes in the Investment Pool's net position is presented below.

Statement of Changes in Net Position

	2024	2023	Increase/(Decrease) Amount	Percentage
Additions:				
Participants' Deposits	\$ 6,905,900,831	\$ 6,830,162,377	\$ 75,738,454	1.1%
Net Investment Income	<u>233,040,448</u>	<u>129,337,064</u>	<u>103,703,384</u>	80.2%
Total Additions	<u>7,138,941,279</u>	<u>6,959,499,441</u>	<u>179,441,838</u>	2.6%
Deductions:				
Participants' Withdrawals	<u>6,810,733,076</u>	<u>6,579,948,913</u>	<u>230,784,163</u>	3.5%
Total Deductions	<u>6,810,733,076</u>	<u>6,579,948,913</u>	<u>230,784,163</u>	3.5%
Changes in Net Position	328,208,203	379,550,528	(51,342,325)	-13.5%
Net Position Beginning of Year	<u>4,277,990,724</u>	<u>3,898,440,196</u>	<u>379,550,528</u>	9.7%
Net Position End of Year	<u>\$ 4,606,198,927</u>	<u>\$ 4,277,990,724</u>	<u>\$ 328,208,203</u>	7.7%

- Cash and deposits increased by \$104.0 million or 56.1%. Participants' deposits increased by \$75.7 million compared to fiscal year 2023, primarily due to higher state apportionments and higher property tax collections.
- In the fiscal year 2024, the investment pool reported a \$233.0 million net investment income compared to a \$129.3 million net investment income in the fiscal year 2023.
- Higher interest rates contributed to an increase in the Pool's yield. Due to the short-term nature of our securities, new investments were invested at higher rates. Interest income in fiscal year 2024 was \$182.9 million compared to \$107.3 million in fiscal year 2023.
- In July 2023, the Federal Reserve raised its benchmark rate, short-term federal funds rate, to a 23-year high of 5.25% to 5.50% in its continuing effort to manage inflation.

**VENTURA COUNTY TREASURY INVESTMENT POOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2024 (UNAUDITED)**

- The net change in fair value from the cost of investments on June 30, 2024, amounted to an increase of \$14.2 million. The net change in fair value from the cost of investments on June 30, 2023, amounted to a decrease of \$38.1 million. The net change in fair value from June 30, 2023, to June 30, 2024, was an increase of \$52.3 million. The Investment Pool holds investments to maturity. Thus, unrealized gains and losses resulting from changes in the fair value are not reflected in the earnings distribution to the pool participants.
- The Investment Pool continues to maintain the highest rating of AAAsf/S1+ by Standard & Poor's Global Ratings Service.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

The Ventura County Treasury Investment Pool (“Investment Pool”) is part of the County of Ventura (“County”) and is responsible for assets of \$4.6 billion as of June 30, 2024. The Investment Pool is administered by the Treasurer-Tax Collector, an elected official, who manages pooled funds under the Prudent Investor Standard in accordance with California Government Code (“GC §”) 53600.3.

The Investment Pool is not registered with the United States Securities and Exchange Commission as an investment company. The Investment Pool does not have any legally binding guarantees of share values. The Investment Pool is comprised of the County, local school districts, local community colleges, and other districts and agencies. Legal provisions require certain special districts to participate in the County’s Investment Pool including public school districts, cemetery districts, recreation and park districts, and the Air Pollution Control District. Involuntary participants in the Investment Pool comprise approximately 53%. The Treasurer-Tax Collector’s authority to invest is delegated by the Board of Supervisors in accordance with GC §53607. The Investment Pool’s investment objectives are to safeguard the principal, meet the liquidity needs of the participants, and return an acceptable yield within the parameters of prudent risk management.

Pursuant to GC §27130-27137, the Board of Supervisors has established the Treasury Oversight Committee (“TOC”), which monitors and reviews the Statement of Investment Policy (“Policy”). The TOC consists of Ventura County officials, representatives from various pool participants, and members of the public. The Treasurer also reports on a monthly basis to the Board of Supervisors.

The financial statements include only the activities of the Investment Pool. These financial statements are not intended to present the activities of the County of Ventura.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accompanying financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method, earnings on investments are recognized as revenue in the period in which they are earned, and administrative costs are recognized as expenses when incurred, regardless of the timing of related cash flows. Interest earned on pooled investments is allocated quarterly to the appropriate participant funds based on each participant fund’s respective average daily balance for that quarter. Investment pool participants’ deposits and withdrawals are based on a full cost basis, while investments are reported at fair value.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024**

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures at the date of the financial statements and during the reporting period. Actual results could differ from these estimates.

Gains and Losses

Unrealized gains and losses of securities are determined by taking the difference between cost and the fair value of investments. The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that were held in more than one fiscal year and sold in the current year were included as a change in the fair value of investments reported in the prior years and current year.

NOTE 2 - CASH AND INVESTMENTS

Cash

Cash includes cash equivalents and demand deposits. At June 30, 2024, the carrying amount of the County's cash was \$289.7 million, and the total bank balance amounted to \$364.3 million. The difference between the carrying amount and the bank balance includes temporary reconciling items such as outstanding checks and deposits in transit. Of the bank balance, \$250 thousand was covered by federal depository insurance and \$364.0 million was uninsured. The total bank balance reflects a need to keep funds available for cash flow purposes. The uninsured deposits were held by a financial institution, which is legally required by the GC to collateralize the County's deposits by pledging government securities or first trust deed mortgage notes. In accordance with GC §53652, the market value of the pledged securities and first trust deed mortgage notes must be at least 110 percent and 150 percent of the County's deposits, respectively, as provided for in the County's Contract for Deposit of Moneys.

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. For deposits, this risk is mitigated through federal depository insurance coverage and collateralization in accordance with GC §53652 as explained in detail above.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024**

Investments

The Policy, which is more restrictive than required by GC §53601 and 53635, stipulates the type, maturity limit, credit rating, and diversification of securities comprising the investment pool. In order of priority, the objectives of the Policy are the safety of the principal, maintenance of liquidity, and earning a competitive rate of return. The Policy, in compliance with GC §53601 and 53635, authorizes the Treasurer to invest in the following instruments: obligations of the U.S. Treasury, agencies and instrumentalities, commercial paper, banker's acceptances, repurchase agreements, corporate notes, negotiable certificates of deposit and Yankee certificates of deposit, supranational instruments, money market mutual funds, registered state warrants or treasury notes or bonds of the State of California, obligations of any local agency within California, and registered treasury notes or bonds of the other 49 states.

Investment Pool investments are accounted for in accordance with the provisions of GASB 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, as amended by GASB 72, *Fair Value Measurement and Application*, which requires governmental entities to report certain investments at fair value in the statement of net position and recognize the corresponding change in fair value of investments in the year in which the change occurred. GASB 72 establishes a hierarchy of inputs used to measure fair value consisting of three levels. The fair value of pooled investments is determined monthly and is provided by the custodian bank. The investment in the State-managed Local Agency Investment Fund ("LAIF"), California Asset Management Program ("CAMP"), and the Investment Trust of California, doing business as CalTRUST, approximates fair value and is the same as the value of the pool shares. See Note 5 for additional information.

The County Treasurer calculates and records all interest received for the Treasurer's Investment Pool on a daily basis. Interest earned on the pooled investments is apportioned quarterly based on the average daily balance of each pool participant.

Custodial Credit Risk - Investment

This is the risk that, in the event of failure by the counterparty to a transaction, the Investment Pool will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Securities purchased by the Investment Pool are held by a third-party custodian, Principal Financial Group, in their trust department to mitigate custodial risk.

Credit Risk and Concentration of Credit Risk - Investment

State law and the Policy limit investments in commercial paper to those with a rating of "A-1" or its equivalent or higher by a Nationally Recognized Statistical Rating Organization (NRSRO). State law and the Policy limit investment in medium-term notes to a rating category of "A" or its equivalent or higher by at least one NRSRO. State law does not limit investments in municipal notes, bonds, and other obligations; the Policy limits the rating category of "A" or its equivalent or higher by at least one NRSRO. State law limits investments in supranational instruments to those with a rating of "AA" or its equivalent or better by at least one NRSRO; the Policy limits the rating category to "AAA" or its equivalent by at least one NRSRO. State law and the Policy do not have credit limits on government agency securities. The Policy states that certificates of deposit above the FDIC insured limit must be collateralized with eligible securities in

VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024

accordance with California law. The Policy states that Negotiable Certificates of Deposit and Yankee Certificates of Deposit above the FDIC insured limit must be issued by institutions that have short-term debt obligations rated “A-1” or its equivalent or better by at least one NRSRO, or long-term obligations rated in a rating category of “A” or its equivalent or higher by at least one NRSRO.

In accordance with GASB 40, *Deposit and Investment Risk Disclosures*, disclosure is required for instruments in any one issuer that represents 5% or more of the investment pool holdings and are not explicitly guaranteed by the United States Government. The Policy limits investments in United States agency callable securities to 20% of the investment pool and 35% of the investment pool per issuer. State law and the Policy limit investments in commercial paper to 40% of the investment pool and 10% of the investment pool per issuer. State law and the Policy limit investments in medium-term notes to 30% of the investment pool; the Policy limit is 10% of the investment pool per issuer. The Policy limits investments in municipal notes and bonds to 30% of the investment pool and 10% of the investment pool per issuer. State law and the Policy limit investments in supranational instruments to 30% of the investment pool and the Policy limit is 10% of the investment pool per issuer. State law and the Policy limit investments in negotiable certificates of deposit and Yankee certificates of deposit to 30% of the investment pool and the Policy limit is 10% of the investment pool per issuer. The Policy limits certificates of deposit to 20% of the investment pool in a combination of federally insured and collateralized time deposits.

VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024

Concentration Risk

The investments in any one issuer that represent 5% or more of the Investment Pool's fair value at June 30, 2024, are as follows:

Issuer	Percentage of Investment Pool
Federal Home Loan Bank	10.27%
Federal Farm Credit Bank	8.00%
Inter-American Develop Bank	5.63%
Swedbank Sparbanken Svenge Bank	5.24%

Interest Rate Risk

Through its Policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the weighted average maturity of the Investment Pool's holdings to 375 days. At June 30, 2024, the weighted average maturity of the Investment Pool was 304 days.

The County's investments at June 30, 2024, are summarized below (in thousands):

Investments	Cost	Fair Value	Weighted Average Maturity (Years)	Weighted Average Maturity (Days)
U.S. Agency Obligations	\$ 992,607	\$ 988,471	0.91	333

CAMP	5.43	5.43	Day-to-Day

California Local Agency Investment Fund

The Investment Pool maintains an investment in the State of California LAIF regulated by the California GC under the oversight of the Treasurer of the State of California. At June 30, 2024, the County's investment in LAIF was \$55.0 million, which approximates fair value and is the same as the value of the pool shares, which is determined on a full cost basis.

Local Government Investment Pools

The Policy authorizes the Treasurer-Tax Collector to invest in local government investment pools such as the Investment Trust of California, doing business as CalTRUST, and in California Asset Management Program ("CAMP"), which are both California joint powers authorities in which the local agencies may invest funds pursuant to GC §53601(p). The total investment in local government investment pools must not exceed 10 percent at the time of purchase. As of June 30, 2024, the County's investments in CalTRUST and CAMP amounted to \$45.0 million, representing 1 percent of the pool. This value approximates fair value and is equal to the value of the pool shares, which is determined on a full cost basis.

**VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024**

NOTE 3 – TRADE RECEIVABLE AND INTEREST RECEIVABLE

Trade Receivable

Trade receivable represents pending settlement of investments that matured on June 30, 2024. At June 30, 2024, the Investment Pool had \$24,132,784 of trade receivable.

Interest Receivable

Interest receivable consists of interest accrued on investments, including interest purchased with certain securities. At June 30, 2024, the Investment Pool had \$621,574 of interest receivable.

NOTE 4 – INTEREST APPORTIONMENT

Interest shall be apportioned to all pool participants quarterly, based upon the ratio of the average daily balance of each individual fund to the average daily balance of all funds in the Investment Pool. Using full accrual basis, the amount of interest apportioned shall be determined using the accrual method of accounting, whereby interest will be apportioned for the quarter in which it was actually earned. The Treasurer-Tax Collector may deduct from the gross interest earnings those administrative costs relating to the management of the Treasury, including salaries and other compensation, banking costs, equipment costs, supplies, the cost of information services, cashiering, accounting, depositing of public funds, audit, and any other costs as provided by GC §27013, 27133(f), and 27135.

NOTE 5 – FAIR VALUE MEASUREMENT

Investments are recorded at fair value in the statement of net position and are categorized based upon the level of judgment associated with the inputs used to measure their fair value. The CAMP, CalTRUST, and LAIF investments are not subject to the fair value hierarchy because their deposits and withdrawals investments are made on the basis of \$1 and not fair value. Level inputs, as defined by GASB 72 guidance for fair value measurements and disclosures, are as follows:

VENTURA COUNTY TREASURY INVESTMENT POOL
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2024

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(in thousands)	Total			
Investments by Fair Value Level				
Debt Securities:				
U.S. Agency Obligations	\$ 988,471	\$ 49,059	\$ 939,412	
U.S. Treasury Bills and Notes	782,984	782,984		
Commercial Paper	366,181		366,181	
Medium Term Corporate Notes	437,033		437,033	
Supranational Instruments	408,955		408,955	
Yankee Certificates of Deposit	1,134,642		1,134,642	
Municipal Bonds	73,524		73,524	
Total Investments - by Fair Value Level	\$ 4,191,790	\$ 832,043	\$ 3,359,747	\$ -
Investments not measured at Fair Value or subject to Fair Value hierarchy				
LAIF	55,000			
CAMP	20,000			
CalTRUST	25,000			
Total Investments	\$ 4,291,790			

Investments classified as Level 1 were valued using unadjusted, quoted prices for identical assets in active markets.

Investments classified as Level 2 were valued using various pricing models such as matrix pricing technique, option-adjusted spread model, and multi-dimensional relational model.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the County Board of Supervisors
County of Ventura, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Ventura County Treasury Investment Pool (Investment Pool), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Investment Pool's basic financial statements, and have issued our report thereon dated April 29, 2025. Our report included an emphasis of matter that the financial statements do not purport to, and do not present fairly the financial position of the County of Ventura, California (County).

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as it relates to the Investment Pool as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County's internal control. Accordingly, we do not express an opinion on the effectiveness of County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Investment Pool's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
