Dear BOS...

Investigations have found safety and security in Ventura County elections/voting.
There is no evidence of hackers in voting...

Electronic voting does not exist; it is done with paper ballots. All ballots are securely locked in place,
There is a crazy false narrative that one can register your pet to vote. Anyone voting for the first time will need proof of identity.

The process we have works well...please get the facts correct and not jump to falsehoods.

WE want to continue with CVCA...we do not support the idea of dropping out CVCA.

Sincerely
Sandra Diaz
