Good day, Supervisors and Clerk of the Board,

The money you are considering spending is OUR money NOT yours. WE do not want our money used to renew this overly costly Dominion contracts. We want to return to our voting system prior to 2019 with some minor modifications. State holiday so everyone can vote. Absentee ballot for those that require it! We have had that for years. We want the neighborhood precincts that were plentiful and closer to everyone's homes and manned by people they knew and knew them, paper ballots and hand counting. We had our results the morning after the election not 1 to 2 months after the election if we are lucky! Dominion machines cost too much and are full of security breaches. They have never changed their password and it was recently put on the internet and reported on some news channels. We want our voter rolls cleaned up and require Voter ID. We need a license to drive, we should have a license to vote. What we have is a very costly voter agency that lies to the citizens and does all it can to obstruct citizen observation of the voting system – a right that all citizens have. It makes you ponder -What are they hiding?

What you do will be recorded and will be remembered. And it will follow you. This is your chance to help save our county and our country. It is that important. Again which side of history do you want to be remembered for: The one for a free republic where our votes count? Or the system that chooses our candidates for us? One day it may not choose you, then you will wish you had listened to us.

Julieanne Case, a resident of Ventura County for 47 years
