Subject: BOS Agenda Item 35 - Request for Time Certain

Dear Clerk of the Board,

Agenda Item #35 on the September 10, 2019 BOS Agenda represents a potentially significant policy change and should not be considered a “regular” agenda item. To leave it as such will limit vital public input and runs contrary to the stated engagement policies and practices of the County.

Please change to a time certain agenda item. Thank you for your consideration.

Subject: CUP agenda item Sept 10

Dear Supervisors:

The addition of an agenda item to the Board meeting within a few days of the meeting to be held, cannot be a behavior in which our Board would want to participate.

Last minute additions and without a time-certain on topics of such monumental change leads one to suspect a behavior that is counter-productive to good government. While there maybe no specific prohibition, how can each of you chose to participate in a practice that is designed to thwart open dialogue.

My request is that the CUP discussion be postponed and made time-certain at a future meeting.
