**SUBJECT: Ventura County Minor Modification to
Conditional Use Permit CUP- LU05-0086
Case No. PL 14-0103 (Renaissance Petroleum)**

Dear Ms. Prillhart,

I own real property interests within Ventura County that are in the vicinity of a producing oil and gas facility, located on the south side of Etting Road, north of State Highway 1, and west of Naumann Road. This facility is operated by Renaissance Petroleum, LLC ("Renaissance") under Ventura County conditional use permit CUP-LU05-0086. I am aware that Renaissance has an administrative hearing on February 26, 2015, when their application for a minor permit modification will be considered. I also understand that the application request includes the addition of four additional wells for a total of five wells within the existing drill pad; the continued operation of existing equipment and the replacement of the existing tanks associated with the oil and gas facility; an increase of the number of truck trips and truck trip hours of operation to transport produced fluids from the site; and, an extension of the permit expiration date to the year 2045.

I am in full support of Renaissance's activities and the requests included in the subject minor modification and I urge your approval.

Sincerely,

Property Owner / Owner Representative Signature

**SUBJECT: Ventura County Minor Modification to
Conditional Use Permit CUP- LU05-0086
Case No. PL 14-0103 (Renaissance Petroleum)**

Dear Ms. Prillhart,

I own real property interests within Ventura County that are in the vicinity of a producing oil and gas facility, located on the south side of Etting Road, north of State Highway 1, and west of Naumann Road. This facility is operated by Renaissance Petroleum, LLC ("Renaissance") under Ventura County conditional use permit CUP-LU05-0086. I am aware that Renaissance has an administrative hearing on February 26, 2015, when their application for a minor permit modification will be considered. I also understand that the application request includes the addition of four additional wells for a total of five wells within the existing drill pad; the continued operation of existing equipment and the replacement of the existing tanks associated with the oil and gas facility; an increase of the number of truck trips and truck trip hours of operation to transport produced fluids from the site; and, an extension of the permit expiration date to the year 2045.

I am in full support of Renaissance's activities and the requests included in the subject minor modification and I urge your approval.

Sincerely,

Property Owner / Owner Representative Signature

This facility is operated by Renaissance Petroleum, LLC ("Renaissance") under Ventura County conditional use permit CUP-LU05-0086. I am aware that Renaissance has an administrative hearing on February 26, 2015, when their application for a minor permit modification will be considered. I also understand that the application request includes the addition of four additional wells for a total of five wells within the existing drill pad; the continued operation of existing equipment and the replacement of the existing tanks associated with the oil and gas facility; an increase of the number of truck trips and truck trip hours of operation to transport produced fluids from the site; and, an extension of the permit expiration date to the year 2045.

I am in full support of Renaissance's activities and the requests included in the subject minor modification and I urge your approval.

Sincerely,

I own real property interests within Ventura County that are in the vicinity of a producing oil and gas facility, located on the south side of Etting Road, north of State Highway 1, and west of Naumann Road. This facility is operated by Renaissance Petroleum, LLC ("Renaissance") under Ventura County conditional use permit CUP-LU05-0086. I am aware that Renaissance has an administrative hearing on February 26, 2015, when their application for a minor permit modification will be considered. I also understand that the application request includes the addition of four additional wells for a total of five wells within the existing drill pad; the continued operation of existing equipment and the replacement of the existing tanks associated with the oil and gas facility; an increase of the number of truck trips and truck trip hours of operation to transport produced fluids from the site; and, an extension of the permit expiration date to the year 2045.

I am in full support of Renaissance's activities and the requests included in the subject minor modification and I urge your approval.

Sincerely,
