**RE: Item PL14-0103 Renaissance Petroleum, LLC**

Mr. Onstot:

The California Independent Petroleum Association (CIPA) appreciates the opportunity to comment in strong support of Renaissance Petroleum's application for a modified Conditional Use Permit (CUP). CIPA represents Renaissance Petroleum and the majority of companies operating oil and gas facilities in the County of Ventura.

The appeal filed is baseless and misleading and should be denied by the Planning Commission. The application filed by Renaissance Petroleum reflects significant work by the applicant to address concerns raised by Planning Division staff and is reflective of a good, local project. The Ventura County oil and gas industry is an integral part of the local economy. Approving this appeal would jeopardize local jobs and local revenue to the detriment of the citizens of Ventura County.

CIPA urges the denial of the appeal and approval of the CUP filed by Renaissance Petroleum. Should you have any questions or wish to discuss this letter further, please do not hesitate to contact me.

Sincerely,

Rock Zierman
