

Supervisor Linda Parks' Quarterly Dinner

How Artificial Intelligence Will Change Our World

You're invited to hear guest speaker, Mic Farris, an astrophysicist whose expertise includes predictive analytics, automated decision making, neural networks, deep learning, and finding order in chaos. He will open our eyes to a future that is hard to imagine, but imagine it we must, and make sure what lies ahead is ethical and humane. We hope you can join us for this educational and exceptionally delicious dinner experience!

Your reservation is guaranteed with your payment.

The dinner is \$45 per person in advance.

Thursday, April 11th

5:30pm Cocktail Reception
