Subject: Fwd: Board Response to Proposed Wildlife Corridor Ordinance

Again Eric does not speak for the residents of BC
Nor all individual members of the board
No resident survey ,questionnaire or feedback has
Been requested of any of the residents
He has not asked for the residents opinions in any form
Obviously Eric has received some outside assistance in drafting this letter
The overriding question needs to be answered
Why Eric wants BC out of the corridor when only some
Of the undeveloped parcels fall within the purview
It's a fact that all wildlife uses BC as their corridor
There are no incidents of human wildlife conflict in the canyon unless
A raccoon digging grubs in your yard is an offense
There have been no collisions of wildlife with traffic
Unless you count a skunk or an opossum which has occurred
Once in the 15 years I ve lived here
Eric and his board refuse to install speed humps or additional
Stop signs or an equestrian crosswalk for safe access to the trails or
The equestrian center or any other traffic calming
Mitigation measures
For him to voice his concern about
wildlife injury is ludicrous
Thank you for all your work
Please stay the course
Full speed ahead
Time is of the essence
