Dear Organizers of SupportWireless,

I will not be able to attend the Board of Supervisor's hearing on October 4. But please communicate that my family and I support improved Verizon Wireless service in Carpinteria along Highway 101, through a facility disguised as a palm tree placed among other existing palm trees on the 10-acre parcel located at 8320 Bates Road.

Sincerely,

David Olsen

RL

Yea, yes! I support better phone service in Carpinteria along Highway 101 through a facility disguised as a palm tree placed among other existing palm trees on the 10-acre parcel located at 8320 Bates Road in Carp.
