Subject: Agenda Item #34 Today

Honorable Board of Supervisors,

The continuing fear that any interaction with law enforcement could lead to deportation is still terrorizing our immigrant community. The online listing of jail release dates must be discontinued because it helps ICE detain and deport people who have fulfilled the sentence for which they were arrested. They should be able to return home to their families after being released from the Sheriff's custody.

We will have a safer, more humane and compassionate Ventura County when all collaboration between our Sheriffs and ICE ends.

Sincerely,

Gordon Clint
