Subject: Public Comment City Council Meeting - Discrimination Against Women

Dear Clerk,

I would like to submit a public comment for the next council and supervisors meeting. My sister was raped 20 years ago. I read on medium that the city attorney heglund claims that he can share her confidential address and phone number if we share that information with others. We dont consent to our city misusing our information like this and placing my sister at risk. I am also concerned that the city is discriminating against women. Can you please tell me how to file a Title VI complaint with the council or city manager? I would also like to urge that Governor Newsom withhold all state funding to Ventura until this is resolved. Thank you.

Sincerely,

Sally
