Categories: Red category

Supervisors,

I object to the Recommendation of Supervisor Bennett and Supervisor Parks to Request the County Executive Officer Arrange for the County to Join the Leave No Trace Non-Profit Organization as a Community Partner.

The County of Ventura has failed to mitigate, and is now intentionally ignoring, the hazardous environmental conditions that have existed for years in the North Ventura Avenue/Crooked Palm Rd. area. It is absurd to think the County is qualified to join an organization whose principles are so openly violated.

The Leave No Trace organization will be notified of the actions, more so inactions, of The County that are contrary to the Leave No Trace organization's 7 Principals.

Henry Babcock
Ventura County
