Subject: Board of Supervisors Agenda Item No. 34

Dear Ventura County Supervisors:

As a concerned resident of Ventura County I am writing to ask you to support Item No. 34 on tomorrow's agenda. The recommendation by Supervisors Bennett and Parks will add reasonable and much needed control and oversight of oil drilling and extraction activities in the County.

Old permits issued when we knew less about the consequences of oil operations and climate change must not be renewed without the constraints in the recommendation. Certainly the public should not be saddled with the costs of proper well plugging and restoration. Present operations should go forward only with conditions that are the same as a new permit applied for today.

Please move ahead with the implementation of the recommendations outlined by Supervisors Bennet and Parks.

Respectfully,

Cy Johnso
