Hello, thank you for reading my comment today. My Name is Kat Selm and I am a resident of Thousand Oaks in Ventura County. I am writing today in support of agenda item 34 "Recommendation of Supervisors Bennett and Supervisor Parks to Direct the Resource Management Agency to Return To the Board by June 2021 with Coastal and Non-Coastal Zoning Ordinance Amendments to Limit Discretionary Permits for Oil and Gas Operations to Fifteen Years". In approving this recommendation, the board will be taking steps to uphold the higher standards outlined in the General Plan Update and will be working to ensure that Ventura County is a safe and healthy place for all its residents. I believe Ventura County should be leading by example for the rest of the state and nation in how it chooses to address these antiquated permits. I also believe Ventura County has a real opportunity to lead the state and nation on climate solutions and I look forward to seeing the implementation of the General Plans integrated climate action strategy.

Thank you.
Sincerely,
-Kat Selm
