Ventura County Board of Supervisors:

I strongly oppose adoption of the Ordinance establishing a safe parking permit program for Crooked Palm, Canada Larga and Casitas Vista Roads. The current parking situation is not acceptable and has not been enforced by VC sheriff personnel. The RV parkers leave piles of trash and dump their sewage there, as most of the vehicles never leave their space. The County needs to provide RV space with proper sewage and trash collection if they truly want to help these residents. I'm sure the county has property or a park that could be converted to an RV park rather than issue permits to park with no services.

Please do not pass this ordinance.
