Subject: Safe parking support

Item 41

I strongly support the establishment of a safe parking program in the designated area. Persons have been parking and living there for several months now with only minor problems.

There are many benefits to having people park in a defined area rather than scattered randomly. The area can be patrolled by law enforcement and regulations can be enforced. Social service agencies and helpers can more conveniently access persons to establish a connection and offer help. Additionally, the persons can form a community and support each other.

I encourage a vote in favor of the Safe Parking item
