Subject: Agenda Item #41 Meeting 11/10/20 "Read at Meeting"q

Hello,

I want to object to the finding that the adoption of the ordinance is categorically exempt from the California Environmental Quality Act and an appeal to this finding will be filed with the appropriate state agencies.

The CEQA was adopted to prevent environmental pollution, and pollution from human waste and refuse is among the most toxic and dangerous. CEQA is meant to protect Californians, and circumventing this act is both dangerous and illegal. Please help remedy this situation by providing solutions that both help those in need, as well as address the pollution, problems and filth generated along this stretch of road.

Thank you for your consideration,
Erica Morris
Concerned Ventura County Resident and Local Inhabitant
