There is negligible cost for purchasing and installing the plaque.

### **DISCUSSION:**

Local cyclists approached us with a request to honor Supervisor Bennett's term on the Board of Supervisors by naming the Ojai Valley Trail bridge over San Antonio Creek as "The Steve Bennett Bridge".

Supervisor Bennett has long been a strong advocate for improved infrastructure for bicycling. Steve was very involved in the development of the Coastal Bike Trail along Highway 101 between Ventura and Carpinteria, moving the bike trail from the inland side of the highway to along the shoreline. He led our Board to allocate funding in our budget to complete bike trails throughout Ventura County, including the addition of bike lanes when roads were repaved. Along with Congressman Salud Carbajal, Supervisor Bennett initiated Cycle California Coast, the joint Santa Barbara-Ventura County effort to improve infrastructure improvements to increase cycle tourism and benefit local cyclists.

It is particularly fitting that the bridge over San Antonio Creek on the Ojai Valley Trail be named after Supervisor Bennett. This project almost didn't happen. The original grant funding came up short. Supervisor Bennett was able to come up with a plan for the County to provide "bridge" funding until another grant was secured. Today, the bridge is an iconic symbol for local cyclists and visitors alike. It is widely regarded as one of the most scenic portions of the popular Ojai Valley Trail, fittingly a trail enjoyed by cyclists and pedestrians of all ages and abilities due to its friendly terrain and gentle slope.

I hope you will join us in this effort to recognize Supervisor Bennett's longstanding and unwavering commitment to providing access to safe bicycle and pedestrian trails throughout Ventura County.
