CAUTION: If this email looks suspicious, DO NOT click. Forward to Spam.Manager@ventura.org

Dear Planning Commissioners,

I'm writing in support of efforts to amend the County's Zoning Ordinances so that your Planning Division and the public can have better oversight over new oil wells and facilities. In Ventura County, thousands of oil wells operate under antiquated permits and more continue to be drilled without an evaluation of environmental impacts. They require little consideration of nearby natural resources and communities. Antiquated permits present a grave risk to the environment, our climate, and public health.

All new wells in Ventura County should abide by the same modern standards. Oil companies should not be allowed to drill an unlimited number of wells, for an unlimited amount of time, and without any evaluation of impacts to public health and the environment.

Please vote to amend the Zoning Ordinance to ensure that new wells and facilities under antiquated permits are subject to environmental review and public notice and hearings.

Regards,
Andrew Haystead

I'm writing in support of efforts to amend the County's Zoning Ordinances so that your Planning Division and the public can have better oversight over new oil wells and facilities. In Ventura County, thousands of oil wells operate under antiquated permits and more continue to be drilled without an evaluation of environmental impacts. They require little consideration of nearby natural resources and communities. Antiquated permits present a grave risk to the environment, our climate, and public health.

All new wells in Ventura County should abide by the same modern standards. Oil companies should not be allowed to drill an unlimited number of wells, for an unlimited amount of time, and without any evaluation of impacts to public health and the environment.

Please vote to amend the Zoning Ordinance to ensure that new wells and facilities under antiquated permits are subject to environmental review and public notice and hearings.

Regards,
Robert Bonewitz
