Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.

In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single mothers, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,  
Edward Brumfield R&R Safety Manager

County of Ventura Board of Supervisors Case No. PL20-0052 Exhibit 23 - Public Comments Industry 5

Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This change policy is part of a short-sited effort to shut down the oil and gas industry in Ventura County, leaving other parts of the world with less stringent environmental standards, to produce the energy we all consume.

As an employee of a local oil and natural gas industry service company, I am concerned about the welfare and employment of 11 coworkers and county residents, and their families that will be affected by this change. We live in Moorpark, Filmore, Oxnard, Ojai, and Ventura. We enjoy the mountains, rivers, and ocean. We take a personal responsibility each day as we work next to them to ensure the stewardship of these resources.

This new policy will not only impact my company's families, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that make housing in Ventura County affordable. I personally know several people that would not be able to find this high paying work in other industries because of the racial bias in our country's economic system.

With that, I am asking you to please prioritize jobs and protect essential industries, like oil and gas production.

Sincerely,

A handwritten signature in blue ink, appearing to read "Wilton Hady", is written over the word "Sincerely,".

In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single mothers, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

 F.R. YARBROUGH  
DILFIELD MECHANIC

Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

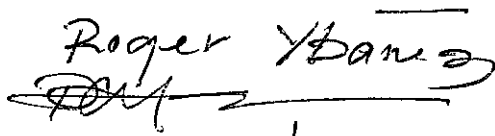

This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.

In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single mothers, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.

In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single mothers, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

JESUS NEZIA

Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

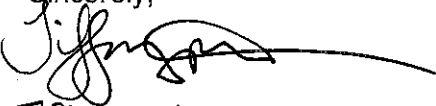

This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.

In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single mothers, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jennifer Towner".

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

**This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County.** By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.

**In this orchestrated effort to shut down all oil and gas operations in Ventura County,** you will be devastating our diverse workforce that includes veterans, single parents, second chancers and Union members. You will also be **taking away the \$56 million in tax revenues that support vital services like education, social services and public safety** during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

 30 years in Industry  
Ray Lopez

You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.**

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

  
Fernando Lopez 9 years in the industry

Re: - Item 7 CASE NUMBER PL20-0052

Commissioners,

As a local oil and natural gas company employee, I am writing you to express my opposition and deep concern on changing the approval process for legacy permits from ministerial review to discretionary approval by the Board. This is not additional oversight for this industry, we are already regulated by more than 25 agencies in the State of California. This is an effort to systematically shut down our industry in Ventura County.

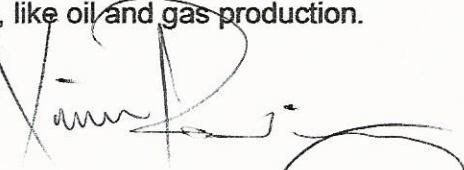

**This new policy will not only impact my family, but also the lives of more than 2,000 fellow oil and natural gas employees here in Ventura County. By agreeing to the suggested changes to the ordinance, over time you will be taking away high paying jobs that put food on the table and a roof overhead for our families.**

**In this orchestrated effort to shut down all oil and gas operations in Ventura County, you will be devastating our diverse workforce that includes veterans, single parents, second chancers and Union members. You will also be taking away the \$56 million in tax revenues that support vital services like education, social services and public safety during a time when the County already recognizes a multi-million dollar shortfall due to COVID-19.**

At a time when unemployment is at 13.5% and we have more than 100,000 individuals who have filed for unemployment insurance or pandemic assistance in the County, your focus should *not* be on efforts that will dramatically increase these statistics and instead, focus on the economic recovery of Ventura County.

With that, I am asking you to please prioritize jobs and protect essential revenue generating industries, like oil and gas production.

Sincerely,

XAVIER RODRIGUEZ
