**Subject:** Support for Agenda Item #47: Protect Our Communities and Environment from Antiquated Oil Approval St

**CAUTION:** If this email looks suspicious, DO NOT click. Forward to Spam.Manager@ventura.org

Dear Ventura County Supervisors,

Oil wells are a source of serious pollution in our County and on our planet. Therefore, I'm writing in support of efforts to amend the County's Zoning Ordinances so that your Planning Division and the public will have better oversight over new oil wells and facilities.

As you know, dangerously, Ventura County, thousands of oil wells operate under antiquated permits, and more continue to be drilled without an evaluation of environmental impacts and little to no consideration of nearby natural resources and communities. Antiquated permits present a grave risk to the environment, our climate, precious water supplies, and public health.

It is clear: new wells in Ventura County should abide by the same modern standards. Oil companies must not be allowed to drill an unlimited number of wells, for an unlimited amount of time, and without an evaluation of impacts on public health and the environment.

I urge you to vote to amend the Zoning Ordinance to ensure that new wells and facilities under antiquated permits are subject to environmental review and public notice and hearings.

Regards,  
Caryn Bosson
