Subject: Public Comment Nov. 10th. Please read aloud during public comments (Oil & Gas operations)

Dear Ventura County Board of Supervisors:

Please accept this correspondence on behalf of LULAC Colonia Council #3231. We strongly request that all new drilling and expanded extraction should require new permits in full compliance with current health, safety and environmental standards. For too long they have continued to operate with antiquated permits that do not consider the health and welfare of our community and this is not acceptable.

We are well aware of the evidence that the Oil and Gas industry pollutes our environment and the health risk that heavily impact our predominantly minority community and this needs to be considered. We urge the County of Ventura to prioritize the health of our community and urge that you require new permits for oil and gas operations in Ventura County.

Sincerely,
Debra Cordes
LULAC Colonia Council #3231, President
