Subject: Public Comments, Agenda Item #47

Honorable County Supervisors:

Our County's grants of Conditional Use Permits harken back from a time when we did not know better. At this point, failure to require all oil and gas operations in Ventura County to be held to modern safety and environmental standards is excusable.

All new drilling and expanded extraction should require a new permit and full compliance with current health, safety and environmental standards. Thank you for helping to make that happen today.

Sincerely,
Elizabeth Rice
