**Subject:** Public Comments, Agenda Item #47

Honorable Board of Supervisors:

Please support Agenda item #47 at your Hearing on Tuesday. It is time to update the way oil and gas operations are regulated and to hire an additional fee supported staff person to handle the increased workload. Oil and gas production directly impact the health and safety of all our residents. Oil and gas are also major contributors to our climate emergency which, if not resolved, could ultimately lead to an end of our civilization.

The Board's support of the Planning Director's recommendations is a small step that must be taken now, before it is too late.

Sincerely,

Gordon Clint
